

**Funded by
UK Government**

Arle Court Transport Hub

**Expanding and improving services and facilities to
deliver a modern transport hub in Cheltenham**

September 2023

Welcome to the second community newsletter for the new Arle Court Transport Hub.

As you may have noticed, construction work is now well under way and has changed dramatically since we started on-site. The first phase of construction is now complete with all foundations and drainage installed.

Phase 2 has commenced with the emergence of the concrete stair towers, lift shaft and structural steel frame with the project really starting to take shape.

Work on the project will soon move on to the passenger waiting areas, curtain walling and the upper floor concrete slabs.

**Funded by
UK Government**

Arle Court Transport Hub

Next steps

We will be holding a community engagement evening towards the end of the year where all are welcome to come and see the progress made. We will communicate all details.

Once complete, the upgraded transport hub will offer additional bus services and better connections to local sustainable transport such as walking and cycling routes.

The scheme is being funded by UK Government's Housing Infrastructure Fund (HIF), administered by Homes England, and by Gloucestershire County Council.

Site opening hours

09:00 – 17:00 Monday – Friday
