

Downton Road Improvements

Proposed Improvements:

- LED Traffic Signal Upgrade.
- Widening of the westbound carriageway from one to two lane between Horsetrough roundabout and Downton Road signals.
- Carriageway widening on the westbound exit to create a two lane merge.
- Provide a Toucan (pedestrian and cycle) crossing and short length of shared use footway/cycleway to replace the current pedestrian only facility on west side of junction.
- Upgrade and widen existing Toucan crossing on east side of junction.
- Removal of the existing signal controlled cycleway through junction.
- Improvements to the street lighting, signing and road markings.
- New off carriageway shared use footway/cycleway facility between Downton Road and Horsetrough Roundabout.
