

Horsetrough Roundabout Improvements

Proposed Improvements:

- Provide segregated left turn lane on Ebley bypass approach to A419 westbound.
- Relocation of the roundabout to facilitate the proposed segregated left turn lane without the need for land acquisition or large earth retaining solution.
- Widening of the A419 easbound to extend the 2 lane approach to roundabout.
- Widen existing footways to provide shared use footway/cycleway linking to existing cycleway routes.
- Improvements to the street lighting, signing and road markings.
- Localised improvements to National Cycle Network Route 45 running parallel to A419
