

Construction Details

Gloucester South West Bypass
Llanthony Road

Programme

The site works are planned to be carried in in phases to ensure that Contractors with the right expertise are appointed for each phase as required.

The schedule below shows the anticipated programme of works. The dates cannot be firmed up at this stage as the land purchase negotiations are at a very early stage and the duration required can vary significantly.

Selection of Contractors

The County Council will procure these works through Open Tender to select the Contractors offering the best value for money.

The Contractors selected will be required to be members of the “Considerate Constructors Scheme”, to ensure that they are sensitive to local concerns.

Regular Liaison

Prior to the site works commencing there will be further publicity and communications; it is anticipated that there would be regular communications with the local community as the scheme develops.

During the site works the County Council will have representatives on site and their contact details will be made available to ensure feedback and concerns are addressed promptly.
