

London Road and Black Dog Way

London Road: Phase 4A Traffic Management Update

Montel Civil Engineering has been appointed by Gloucestershire County Council to deliver highway and cycling infrastructure improvements along London Road and Black Dog Way.

Construction of Phase 4A (as shown on the accompanying phasing plan) is now underway. To facilitate these works, pedestrian routes between the Esso Garage and Alvin Street have been diverted to the southern footway.

To safely construct the new cycle lane and provide a protected working area for site operatives, the existing one-way traffic management arrangement on London Road will be extended, in agreement with Gloucestershire County Council.

The one-way closure will now operate from the Black Dog Way/London Road junction through to Alvin Street.

The revised traffic arrangements are as follows:

- Traffic entering London Road from Great Western Road will be able to turn right only onto London Road, following the existing one-way system.
- Traffic travelling east (from Black Dog Way/Bruton Way) along London Road towards Great Western Road will be able to carry on straight on or to turn right into Great Western Road, via the one-way system.
- Traffic travelling west on London Road towards the City Centre will be unable to access Great Western Road from this direction and drivers are advised to follow the diversion (see diversion plan below).

These arrangements will be in place from 5 October until the end of November.

We apologise for any inconvenience this may cause and greatly appreciate your patience and cooperation while these important works are carried out.

If you have any questions, please contact us at customerservice@montel-group.com or Gloucestershire County Council at majorprojects@gloucestershire.gov.uk.

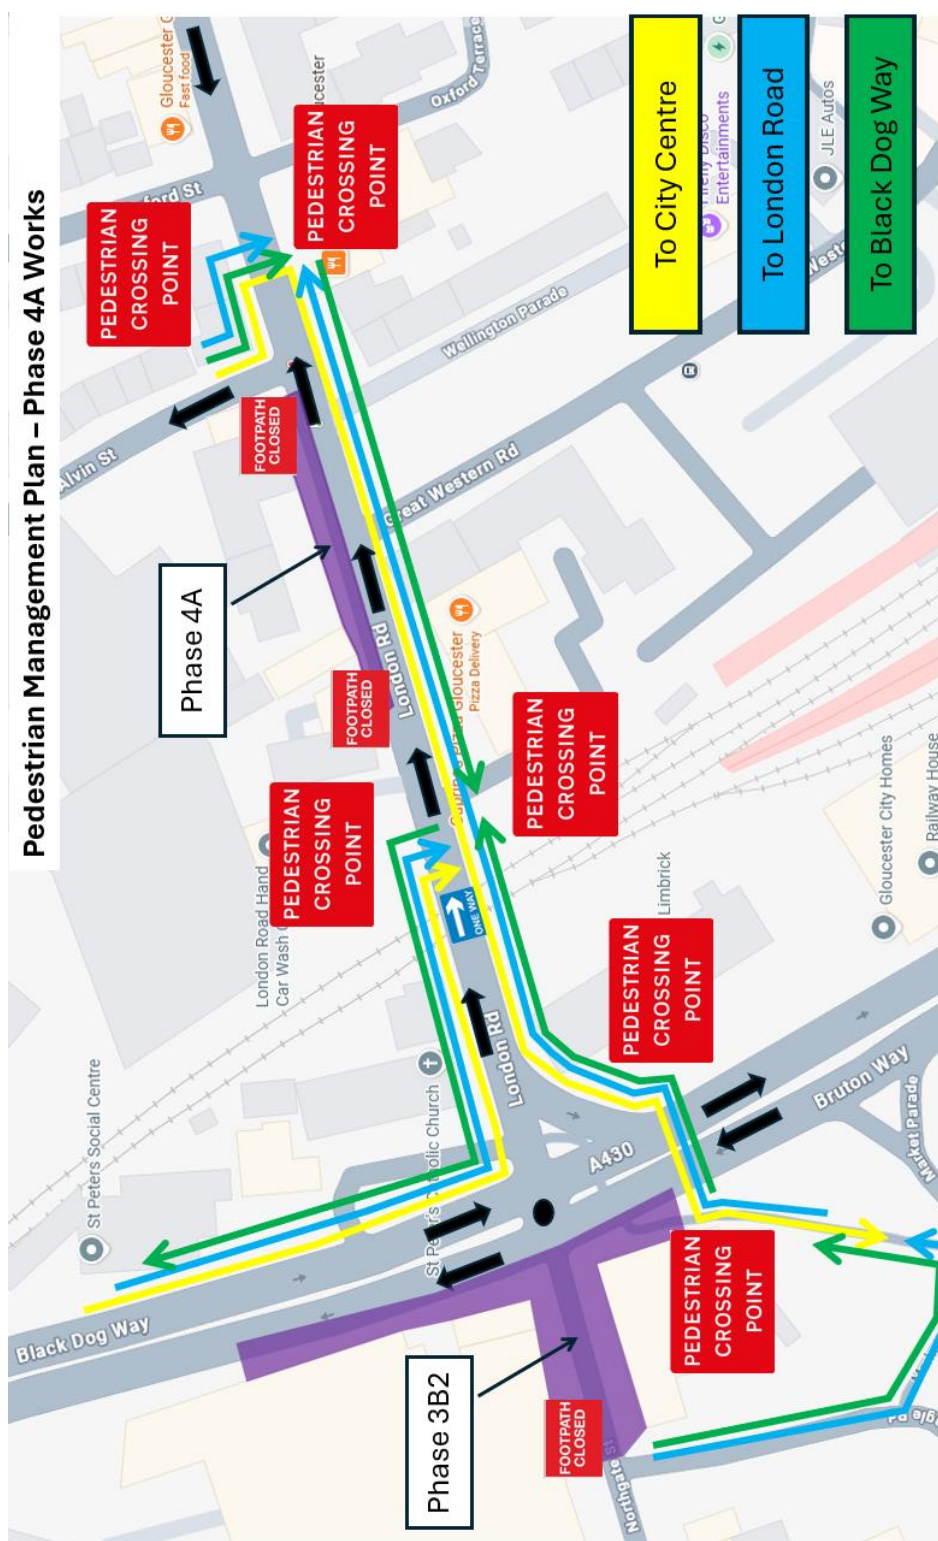

Thank you for your patience while we carry out these important improvements.

Kind regards,

Montel Civil Engineering Team
