

A38 Cross Keys Roundabout Improvements

Bulletin 3 – 7th June 2019

Progress since 24th May

Drainage pipes and cable ducts have been installed within the roundabout island and kerbs have been set along the new line of the roundabout. Preparations for the new carriageway surface are underway. The new temporary surface around the inside of the roundabout will be completed on **Monday 10th June**. Following this we will be removing the cones from the inner lane of the roundabout.

The new Kerbs and carriageway sub-surface

We also installed ducts across the roundabout lanes using road closures to ensure that the workforce, and public, remained safe.

Duct crossings installed on the roundabout

Upcoming Works

During the next two weeks we will be working along the A38 approach to Cross Keys from the M5 (previously the B4008) to build a new retaining wall. We will also be working on the verge between the A38 from Gloucester and the B4008 from Quedgeley to scrape the topsoil, conduct trial holes and install drainage and ducting.

Traffic Management

In the week commencing **Monday 10th June** we will be installing off-peak (09:30 – 15:30) lane closures on lane 1 on the A38 from Cross Keys Roundabout to Gloucester in both directions.

As we progress with these important improvements, your patience is greatly appreciated.

If you have any concerns or issues regarding the roundabout improvement scheme, please contact me on 03301 071484*. I will be available throughout the construction phase to provide continuous engagement with businesses and residents within the local area.

Further information about the project can be found here:
