

GLOUCESTERSHIRE CLIMATE CHANGE SUMMIT

21st May 2019

Welcome
#glosclimate

Gloucestershire
Climate Change Summit
2019 Gloucestershire
carbon neutral by 2050

Welcome & How the day will run

Simon Roberts, Chief Executive
Centre for Sustainable Energy

Welcome

Adam Starkey, Vice Chair
Gfirst Local Enterprise
Partnership (LEP) Board

Gloucestershire
COUNTY COUNCIL

Proud partners of the
Emissions Reduction Pledge 2020

HM Government

Gloucestershire
Climate Change Summit
2019 Gloucestershire
carbon neutral by 2050

Table discussion

- What can we do now will make sure tomorrow is different from today (and in the right way)?
- Around tables, discuss and capture what ambitious actions **you** can commit to now, within current conditions, to **start, stop, change** or **accelerate** reductions in carbon emissions
- Three spheres of influence
 - At **home** and in your ‘personal’ life and consumption choices
 - At **work** or an organisation you’re involved with
 - In the **community**, as people with connections and as citizens and participants in civic life
- Focus is on what YOU can do now, without anyone else needing to take action first

Table Discussion 'B'

Simon Roberts, Chief Executive
Centre for Sustainable Energy

Table discussion

Reviewing the actions you identified earlier, discuss as a table the following questions:

- To make the most of your actions and help other people to contribute more, **what do you want to see in the next Gloucestershire Climate Change Strategy?**
- **Who else needs to act and what do you want/need them to do?**

Capture table conclusions on form B.
