

A38 Cross Keys Roundabout Improvements

Bulletin 7 – 17th September 2019

Progress since 4th September

During the last two weeks we have continued our surfacing programme across the site, with the new cycleway and footway now complete.

We have also continued to install streetlighting across the site.

The central reservation between the A38 toward/from Gloucester has been surfaced and the safety barriers have been removed.

Upcoming Works

During the week we will have off-peak (09:30 – 15:30) lane closures in place on the B4008/A38 between Cross Keys Roundabout and junction 12 of the M5.

Tuesday 17 September from 19:30 to 06:00 there will be night works to install a duct across the entrance/exit to the service station. Traffic in an out of the service station will be manually controlled.

On Wednesday 18 September we will be closing lanes on the A38 from Cross Keys Roundabout toward Stroud/Whitminster for more duct crossing works. We will also be starting to construct the new crossing and island here, which will be done at night under temporary traffic lights and will take approximately four nights.

We will soon be starting surfacing works, so there is a table below to outline the various closures, all in place over night between 19:30 and 06:00. All diversions will be fully signposted.

Date	Works Area	TM Requirement
23/09/2019	B4008 North bound	Closure of West side of Roundabout, B4008 North, A38 Bristol Road, A38 North - North bound. And inner ring of east side of roundabout
	West side of Roundabout
