----------------------	--------------

GUIDANCE NOTES:

- *If relevant, please explain why any year groups exceed the schools admission number*
- This new FAP Transition will replace the current Managed Transitions and should only include formal arrangements between APS, LA, and the receiving school. FAP points will be allocated following the successful transition.
- It is understood that all children with a EHC Plan or Children in Care (CIC/LAC) will have been allocated a place through the usual admissions process for those children, despite having significant challenges which may have fallen within the FAP categories (i.e. permanent exclusion). If the child is under EHCP assessment, they may still come to the FAP Panel who will decide the next steps on a case by case basis.
- Whilst the panel must have due regard to the information supplied by schools, there is no guarantee that this will mean that your school is not allocated a FAP child at panel; it is therefore important that you advise what you can offer the pupil and what other support you may need for their transition.

Any additional information written on a cover sheet or other pages cannot be accepted, to ensure that each school can be fairly considered against consistent information.

Please note that all information provided on this form will be viewed and considered by the fair access panel members for the child in question. The pro-forma will also be kept on the child's file within the Local Authority according to information requirements.
