Emergency lowering - Manual and electrical

### Fitting Instructions

#### Fitting Instructions

This item will be delivered by a GIS driver/fitter to the clients address as detailed on the order. Hoists and standaidis will not be demonstrated by GIS

Assessors must only order a hoist when competent in Moving and Handling techniques and able to risk assess in order to provide clear instructions about the use of the hoist

It is essential that this moving and handling equipment is correctly fitted and demonstrated to the client and carers by an assessor who is competent in safe moving and handling techniques and risk assessment

Please ask for joint working with your local Moving and Handling Keyworker. If you cannot identify a Keyworker, contact the Moving and Handling specialists on 0300 421 8175 for further information

It is important to include all relevant information in your order so that the GIS driver/fitter can plan and deliver the hoist safely and effectively. Please include details of access to the property any parking restrictions and if the hoist is to go upstairs or downstairs etc. It is the assessors responsibility to provide GIS with this information.
