

Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required?

The site is level, however the Definitive route and the used route through the farmyard and paddock can be waterlogged or partially flooded in wet weather so waterproof footwear is advised.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

Part of the Definitive route crosses a paddock which is used for grazing horses and occasionally sheep. There are also chickens roaming in the paddock.

3. Is the site remote and/or can it be seen from other highways or rights of way?

The site is on the outskirts of Bourton on the Water and is accessed from a quiet lane, however both the existing and proposed paths are very close to the property.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

There is a good mobile signal but no public telephone box in the vicinity.

5. Is the right of way easily accessible? Will arrangements for access by the Inspector need to be made in advance?

The right of way is easily accessible, however vehicles might need to be parked on Marshmouth Lane outside the farmyard.

6. Are there any dangerous pieces of equipment or substances stored at any point along the right of way?

No.

7. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No.
