

## New features on The Library catalogue –July 2022

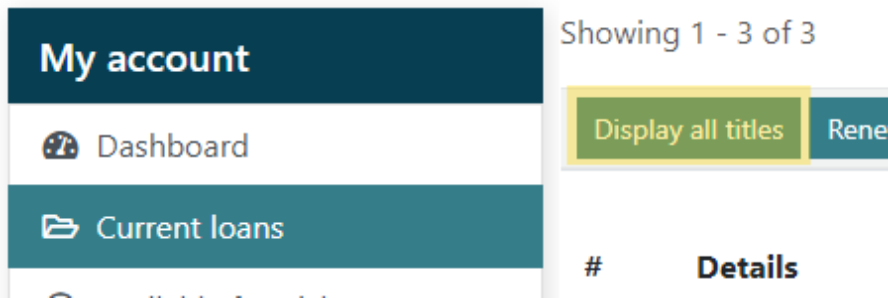

- When searching the catalogue, if you have previously borrowed that edition of a book the system will let you know. The message relies on the ISBN of the book and so if you have borrowed a hardback version, it will not warn you if, for instance, you are looking at the paperback version

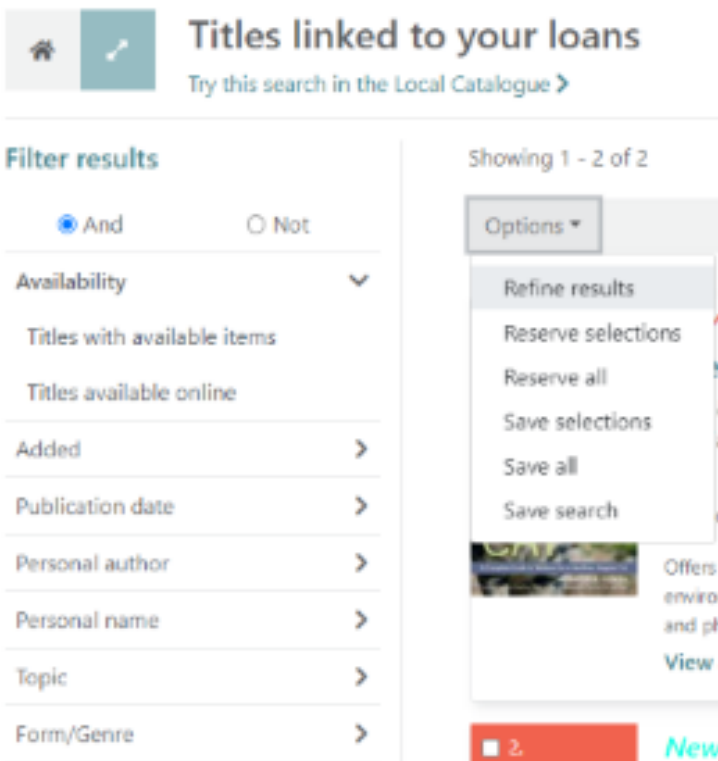

- If an item has been returned that day to a library, it will display a 'Recently Returned' message in the catalogue.

- It is now possible for a customer, who is logged in to their account on the catalogue, to perform a search of their current loans, and of their loan history.
  - When viewing **Current loans** click the **Display all titles** button to translate the list of loans to the book records linked to those loans.

- If any titles listed in **Current loans** are not available at the catalogue, for instance if they are loans from outside the county, they will not be listed.
- The resulting brief display may be refined and filtered like a normal catalogue search.

- When viewing **Previous loans** (under **History**) click the **Display all titles** button to translate the list of loans to the book records linked to those loans.
