To whom it may concern,

My name is Neil Wylie, I head up a FREE project for Primary Schools in the South of England from the Angling Trust and Shakespeare called Reel Education.

Reel Education is a whole school enrichment activity based on the national curriculum that aims to encourage children across the country to value Britain's rivers, lakes and seas. It also aims to get children and their families to consider getting involved in the sport of Angling.

The project has two components. A classroom-based element consisting of pre-made lessons for KS1 and upper and lower KS2, these focus on Science, Art and Maths. All the lessons, worksheets and videos are provided in advance to your school. The lessons have been developed by a team from the Oak Academy. They come in MS Office, PDF and video formats.

The second is a PE element where we will provide a qualified and DBS'd Angling Trust coach to come to your school and deliver games and activities themed around the sport of angling. We can deliver to up to 150 students in a day and are more than happy to deliver the programme over 2 days depending on the size of your school.

We have delivered the project to over 2000 students across the UK since we launched in April 2022 with fantastic feedback. Please see the flyer included to see some examples of the project in action.

Again, this project is completely **free** for your school, the Angling Trust has secured funding for the next 3 years to deliver this project across the country.

Please do not hesitate to get in touch if you have any queries.

Yours sincerely,

Neil Wylie

REEL EDUCATION

The Angling Trust and Shakespeare have launched a new primary school project 'Reel Education'. The project engages students in the KS1 and KS2 stages of education about the importance and value of our rivers, lakes and seas and to help develop an awareness of the sport of fishing.

The Angling Trust can be booked to come into a primary school and will provide all learning materials for the day, including lesson plans, activities and exercises in Science, Maths, and Art. As well as in-class activities, Angling Trust coaches will provide P.E style fishing and environmental activities that will inspire and generate interest in the outdoors and the environment.

- 'Reel Education' project is a Free Primary school resource
- Developed by Angling Trust and Shakespeare
- Lesson plans and activities created by teachers and linked to the national framework
- Focussing on Art, Maths & Science in curriculum-based activities
- P.E and games led by licensed Angling Trust coaches
- Shows the link between Environment, Nature and Angling
- Full day of exercises, activities and lesson plans
- Develops local links to fishing events

**WANT THE ANGLING TRUST TO VISIT YOUR SCHOOL?

REEL EDUCATION

'Chris and the team were excellent. They showed their passion for the job and were very professional. They accommodated for all learners and made their visit very memorable.'

'The children absolutely loved the games, and were very engaged throughout. This was the case in all age groups. The children really gushed about how much they enjoyed the sessions.'

'The children in my class absolutely loved the day! They learned so much, and it was a really engaging and exciting range of activities for them. Will definitely be running the day again next year!'
