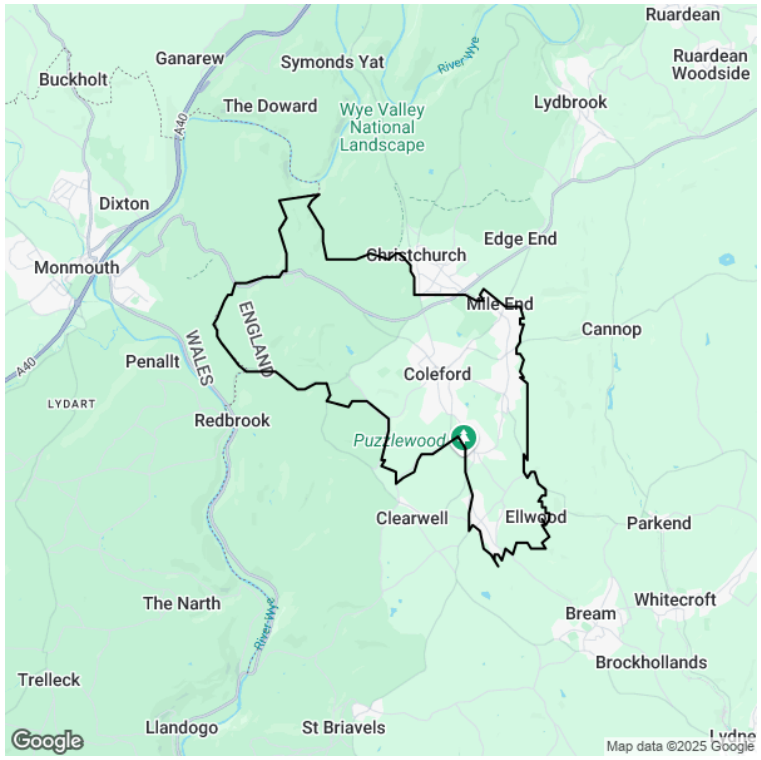
InformGloucestershire



Local Insight

Local Insight provides instant access to the information you need for the neighbourhoods you care about.

We bring together small-area social and demographic data in one easy to use and intuitive platform. You can explore data for any area you are interested in through maps, dashboards and reports.

Find out more at: localinsight.org

OCSI

We combine expertise in research and technology to support organisations working for social good to make evidence-based decisions. We have worked with more than 250 public and community sector organisations from local to international level.

Our research and services are based on unrivalled knowledge and use of place-based social, economic and demographic data.

Find out more at: ocsi.uk

About the indicators

OCSI routinely collect all small-area data published by more than 50 government agencies and other reputable bodies. We identify key indicators relevant to local authorities, grantmakers and charities to include within this report and the Local Insight platform.

We manage and maintain all the data and provide comprehensive metadata so that you can be confident you are using the most up-to-date data.

How we have identified the area of Coleford ED

Population

Population Composition

The table below provides insight into the population composition in Coleford ED. These population figures provide detail of the structure of the population by broad age bands and sex. This data is taken from the Office for National Statistics (ONS) 2022 Mid-Year Population Estimates.

There are 10,696 people in Coleford ED. This is smaller than the population of England (57,112,542) and smaller than the population of Gloucestershire (652,666).

Population Composition

Indicator	Coleford ED		England		Gloucestershire	
	Count	**Rate**	**Count**	**Rate**	**Count**	**Rate**
Total Population	10,696	-	57,112,542	-	652,666	-
Males	5,184	48.47%	27,986,032	49.00%	319,008	48.88%
Females	5,512	51.53%	29,126,510	51.00%	333,658	51.12%
Population Aged 0-15	1,767	16.52%	10,567,635	18.50%	114,379	17.52%
Population Aged 16 to 64	6,142	57.42%	35,915,152	62.88%	395,249	60.56%
Population Aged 65+	2,787	26.06%	10,629,755	18.61%	143,038	21.92%

Index of Multiple Deprivation (IMD)

Oxford Consultants for Social Inclusion Ltd. All rights reserved.
Copyright © 2025

The following visualisations draw upon data from the Index of Multiple Deprivation (IMD) to give insight into vulnerable populations in Coleford ED, England, Gloucestershire. The Indices of Deprivation 2019 are a relative measure of deprivation for small areas (Lower-layer Super Output Areas) across England. The overall Index of Multiple Deprivation 2019 combines together indicators under seven different domains of deprivation: Income Deprivation; Employment Deprivation; Education Skills and Training Deprivation; Health Deprivation and Disability; Crime; Barriers to Housing and Services and Living Environment Deprivation. A higher score indicates that an area is experiencing high levels of deprivation.

The boxes below show the IMD score and rank (average LSOA Rank, where a lower rank indicates that an area is experiencing high levels of deprivation) for Coleford ED, England and Gloucestershire.

Coleford ED has an IMD score of 20.77. This means that Coleford ED has similar levels of deprivation to England (21.76) and higher levels of deprivation to Gloucestershire (14.92).

IMD Score	IMD Rank
20.77	**14,410**
(England = 21.76, Gloucestershire = 14.92)	(England = 16,356, Gloucestershire = 20,921)

Oxford Consultants for Social Inclusion Ltd. All rights reserved.
Copyright © 2025

Source: Ministry of Housing Communities and Local Government (MHCLG; 2019)

The bar chart below explores this further, showing the proportion of people living in neighbourhoods grouped into deciles according to level of deprivation derived from the IMD. A higher score on the IMD indicates that an area is experiencing greater levels of deprivation. To clarify, all neighbourhoods in England are grouped into ten equal sized groups “deciles”; neighbourhoods in decile 1 fall within the most deprived 10% of neighbourhoods nationally, whilst neighbourhoods in decile 10 fall within the least deprived 10% of neighbourhoods nationally.

Housing

Average House Prices

The figures below show the mean house prices by accommodation type across Coleford ED and comparator areas for four key dwelling types (detached houses, semi-detached houses, terraced houses and flats). Data on house prices is from the Land Registry open data, price-paid dataset The Land Registry collect data on all housing transactions, published by individual property and date with the average house-price for all property types calculated on a rolling 12 months total.

The average property price for all dwelling types in Coleford ED was £280,927 between Dec-2023 to Nov-2024. This is lower than within England (£353,243) and lower than the average within Gloucestershire (£373,708).

Note: Some small areas may not have had a transaction recorded within the twelve month period leading to gaps in the figures below.

Crime

The following data provides insight into the recorded crime rates in an area. The data is created using the rolling 12 month total of neighbourhood-level incidents for various types of offence as a rate per 1,000 residents. The incidents were located to the point at which they occurred and allocated to the appropriate lower super output area (LSOA). This is based on data for individual crime incidents published via the Police UK open data portal which has been linked by Local Insight to selected neighbourhoods.

Please note there can be missing data in Police.uk crime counts for certain areas. This is often due to issues with IT system changes at various police forces such as Devon and Cornwall, and Greater Manchester currently, which affects their reporting of figures to Police UK. Please see Police UK's change log for details of current known issues.

Crime and Anti-Social Behaviour Summary

The table below shows counts and rates for the main crime types and anti-social behaviour incidents between Dec-2023 to Nov-2024.

There were 926 total crime offences in Coleford ED between Dec-2023 to Nov-2024, with the overall crime rate being 86.5 per 1,000 population. This is lower than the average across England (90.6) and lower than the average across Gloucestershire (88.2).

Crime and Anti-Social Behaviour Summary

Indicator	Coleford ED		England		Gloucestershire	
	Count	**Rate**	**Count**	**Rate**	**Count**	**Rate**

Health

Disability Benefits

The table below shows a series of indicators related to disability benefits providing the total numbers of claims and proportions within each area that are accessing the support systems available. It includes the following benefits;

- Personal Independence Payment (PIP) can help with extra living costs if you have both: a long-term physical or mental health condition or disability and difficulty doing certain everyday tasks or getting around because of your condition.
- Disability Living Allowance (DLA) is payable to children and adults who become disabled before the age of 65. It is being replaced by other benefits (mainly PIP).
- Attendance Allowance helps with extra costs if you are over 65 and have a disability severe enough that you need someone to help look after you.
- Universal Credit (UC) disabled child entitlement is an increased award for the child element of UC where a child is entitled to a rate of DLA or PIP.
- Universal Credit (UC) limited capability to work entitlement is for when a household member has limited capacity to work due to poor mental or physical health conditions.
-

11.58% of the working-age population in Coleford ED are receiving Personal Independence Payments (PIP). This is higher than the proportion in England (9.41%) and higher than the proportion in Gloucestershire (7.45%).

Long-Term Physical/Mental Health Conditions

The boxes below show the number and proportion of people disabled under the Equality Act with different limitations on day-to-day activity and also for those who have a long term physical or mental health condition but are not limited day to day.

Figures are taken from responses to the 2021 Census and are based on a self assessment of whether or not a person has a limiting long-term illness, health problem or disability which limits their daily activities or the work they can do, including problems that are due to old age.

Oxford Consultants for Social Inclusion Ltd. All rights reserved.
Copyright © 2025

In Coleford ED, the proportion of people disabled under the Equality Act with their day-to-day activities limited a lot is 8.71%. This is higher than the proportion in England (7.33%) and higher than the proportion in Gloucestershire (6.39%).

Day-to-Day Activities Limited a Lot	Day-to-Day Activities Limited a Little	Physical or Mental Health Condition but Day-to-Day Activities Are Not Limited
935	**1,340**	**840**
8.71% (England = 7.33%, Gloucestershire = 6.39%)	12.49% (England = 9.97%, Gloucestershire = 10.41%)	7.83% (England = 6.83%, Gloucestershire = 7.97%)

Source: Census 2021

Self-Reported General Health

The chart below shows data from Census 2021 on the proportion of residents within each response category from a self-assessment of general health.

1.31% of people in Coleford ED have very bad health. This is higher than the proportion in England (1.17%) and higher than the proportion in Gloucestershire (0.94%).

Employment

Full-Time and Part-Time Jobs

The chart below shows the number (rounded to the nearest 1,000) and proportion of all employee jobs that are full-time and part-time. Data is taken from the 2023 Business Register and Employment Survey (BRES) of approximately 80,000 businesses and weighted to represent all sectors of the UK economy.

There are approximately 2,152 full-time jobs and 1,116 part-time jobs in Coleford ED. The proportion of full-time jobs in Coleford ED (65.39%) is lower than the proportion in England (69.16%) and lower than the proportion in Gloucestershire (66.44%).

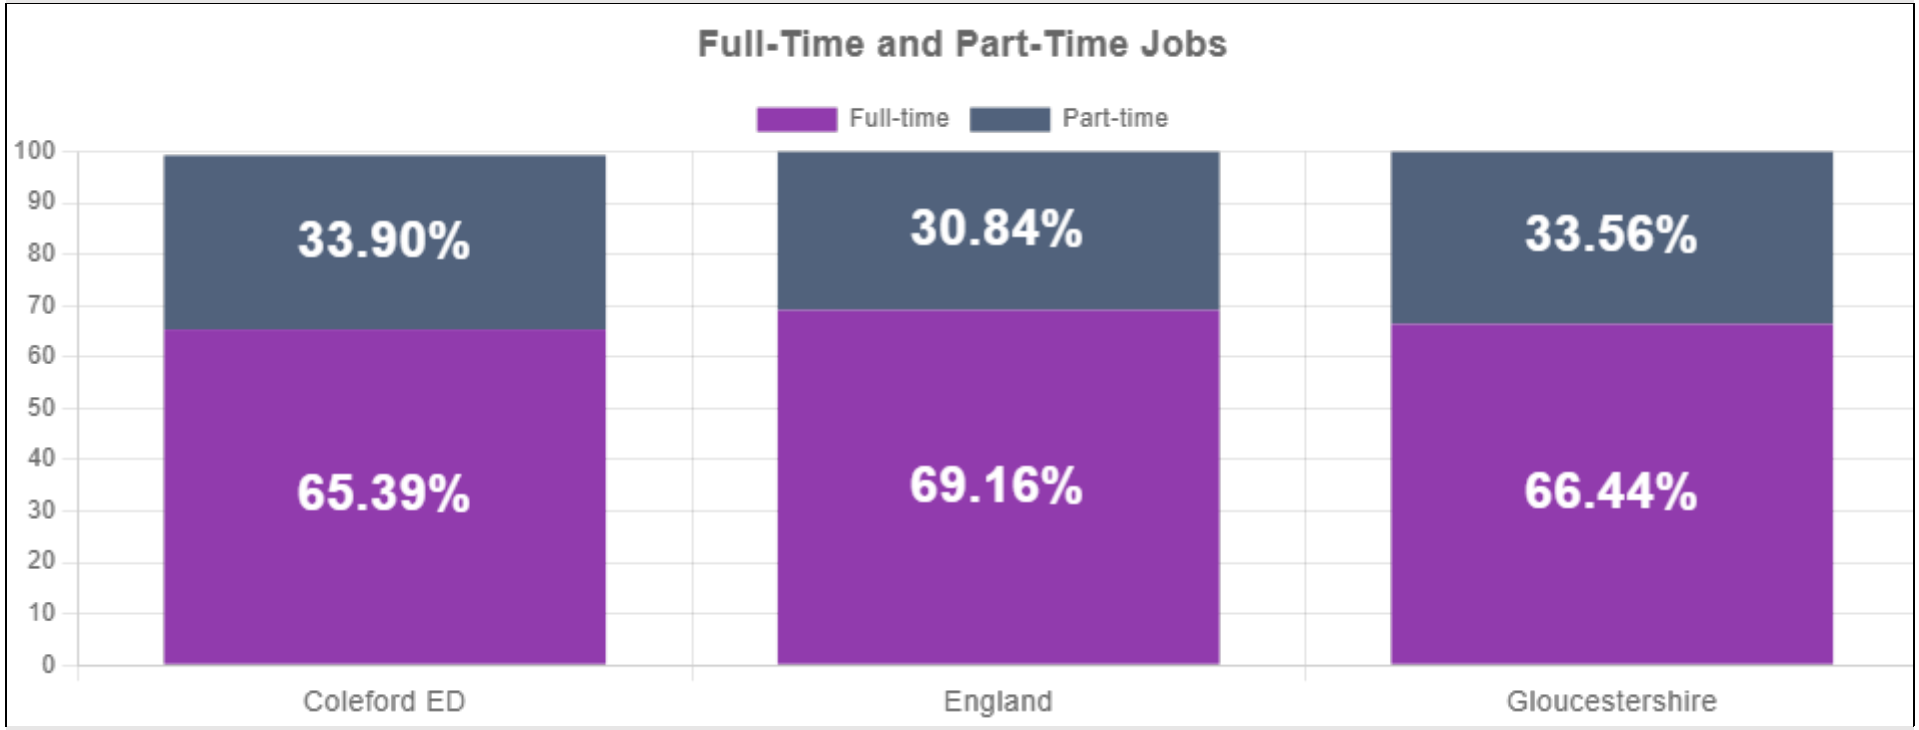
Full-Time and Part-Time Jobs



Source: Business Register and Employment Survey (BRES)

Jobs Density

The chart below shows a time series of job density between 2009 and 2023 across Coleford ED, England and Gloucestershire. Jobs density reflects the number of jobs located in the local area as a percentage of the working age population in that area. Data is taken from the Business Register and Employment Survey (BRES) of approximately 80,000 businesses and weighted to represent all sectors of the UK economy.

Oxford Consultants for Social Inclusion Ltd. All rights reserved.
Copyright © 2025

In Coleford ED, the jobs density has remained stable, from 0.53 in 2009 to 0.54 in 2023. This latest figure is similar to the proportion in England (0.79) and similar to the proportion in Gloucestershire (0.79).

The BRES definition of an employee is anyone working on the BRES reference date who is aged 16 years or over that the contributor directly pays from its payroll(s), in return for carrying out a full-time or part-time job or being on a training scheme.

Communities and Environment

Community Needs Index (CNI) Ranks

The chart below shows the overall rank on the 2023 Community Needs Index (CNI), as well as a rank on each of the three CNI domains for Coleford ED, England and Gloucestershire. The CNI was developed to identify areas experiencing poor community and civic infrastructure, relative isolation and low levels of participation in community life. The index was created by combining a series of 28 indicators, conceptualised under three domains: Civic Assets, Connectedness and Active and Engaged Community. A lower rank indicates that an area has relatively higher levels of need.

- Civic Assets: measures the presence of key community, civic, educational and cultural assets in a close proximity of the area. These include pubs, libraries, green space, community centres, swimming pools – facilities that provide things to do often, at no or little cost, which are important to how positive a community feels about its area.
- Connectedness: measures the connectivity to key services, digital infrastructure, isolation and strength of the local jobs market. It looks at whether residents have access to key services, such as health services, within a reasonable travel distance. It considers how good public transport and digital infrastructure are and how strong the local job market is.
- Active and Engaged Community: measures the levels of third sector civic and community activity and barriers to participation and engagement. It shows whether charities are active in the area, and whether people appear to be engaged in the broader civic life of their community.
-

Coleford ED has an overall CNI rank of 3,645. This means that Coleford ED has higher levels of community need than England (17,040) and higher levels of community need than Gloucestershire (14,829).

Indices of Deprivation (IoD) Air Quality

The boxes below show modelled estimates of air quality based on the concentration of four pollutants: nitrogen dioxide, benzene, sulphur dioxide and particulates. Values for each of the pollutants were based on 2016 air quality data published by the UK Air Information Resource for 1km grid squares. A higher concentration indicates that an area is experiencing high levels of deprivation.

Oxford Consultants for Social Inclusion Ltd. All rights reserved.
Copyright © 2025

Coleford ED's estimated concentration of nitrogen dioxide is 0.220. This is lower than the concentration in England (0.430) and lower than the concentration in Gloucestershire (0.339).

Nitrogen Dioxide	Benzene	Sulphur Dioxide	Particulates
0.220	**0.057**	**0.034**	**0.325**
(England = 0.430, Gloucestershire = 0.339)	(England = 0.098, Gloucestershire = 0.087)	(England = 0.034, Gloucestershire = 0.031)	(England = 0.395, Gloucestershire = 0.369)

Access and Transport

Car Ownership

The table below shows the number and proportion of households according to their ownership of a car or van. This is based on responses to the car ownership question in the 2021 Census which asks information on the number of cars or vans owned, or are available for use, by one or more members of a household. This includes company cars and vans available for private use and is based on details for private households only. Cars or vans used by residents of communal establishments are not counted.

In Coleford ED, 15.66% of households have no access to a car or van. This is less than the proportion without access to a car or van in England (23.54%) and similar to the proportion without access to a car or van in Gloucestershire (14.94%).

Car or Van Ownership

Indicator	Coleford ED		England		Gloucestershire	
	Count	**Rate**	**Count**	**Rate**	**Count**	**Rate**
No Car	753	15.66%	5,516,098	23.54%	41,734	14.94%
1 Car	1,923	40.00%	9,674,645	41.28%	112,950	40.42%
