

Gloucestershire County Council Risk Management Policy Statement & Strategy

2017-2018

Risk Management Policy Statement

Gloucestershire County Council (GCC) recognises that Risk Management is one of the key principles of effective Corporate Governance. It is also a key contributor to a sound internal control environment and the Annual Governance Statement.

The Council seeks to adopt recognised best practice in the identification, evaluation and cost effective/proportional control of risks and opportunities to ensure that they are managed at acceptable levels. Risk management within GCC is about managing our threats and opportunities and striving to create an environment of 'no surprises'. By managing our threats effectively we will be in a stronger position to deliver our business objectives. By managing our opportunities we will be in a better position to demonstrate improved services and better value for money.

Risk is unavoidable. It is an important part of life that allows us all to move forward and develop. As an organisation it can impact in many ways, whether financially, politically, on our reputation, environmentally or to our service delivery. Successful risk management is about ensuring that we have the correct level of control in place to provide sufficient protection from harm, without stifling our development. As an organisation, with a range of different stakeholders, each with differing needs and expectations, this can be a challenge. We must ensure that the decisions we take as a Council reflect a consideration of the potential implications for all our stakeholders. We must decide whether the benefits of taking our actions outweigh the risks.

The Council's overriding attitude to risk is to operate in a culture of creativity and innovation, in which risks are identified in all areas of the business, are understood and proactively managed, rather than avoided. Risk management therefore needs to be taken into the heart of the Council and our key partners. We need to have the structures and processes in place to ensure the risks and opportunities of daily Council activities are identified, assessed and addressed in a standard way. We do not shy away from risk but instead seek to proactively manage it. This will allow us not only to meet the needs of the community today, but also be prepared to meet future challenges.

The Cabinet and the Corporate Management Team are fully committed to effective risk management and see it as part of our responsibility to deliver an effective public service to the communities within Gloucestershire.

Risk Management Strategy

This strategy recognises that the next few years will present unprecedented challenges for the Council in delivering its services and corporate priorities.

Risk Management is a central part of the Council's strategic management. It is a cyclical process whereby the Council identifies, evaluates, monitors and controls potential opportunities and adverse effects that challenge the assets, reputation and objectives of the organisation. It enables the Council to effectively manage strategic decision-making, service planning and delivery, to safeguard the wellbeing of our customers and stakeholders.

The Council should not be afraid of identifying a risk or feel that identifying a risk is a failure. Identification of a risk provides an opportunity for improvement and success!

What are the real benefits of managing risk?

Risk Management will strengthen the ability of the Council to achieve its corporate objectives and enhance the value of services provided by:

- Informing strategic and operational decision-making;
- Safeguarding all persons to whom the Council has a duty of care;
- Increasing our chances of success and reducing our chances of failure;
- Enhancing stakeholder value by minimising losses and maximising opportunities;
- Increasing knowledge and understanding of exposure to risk;
- Enabling not just backward looking review, but forward looking thinking;
- Contributing towards social value and sustainable development;
- Reducing unexpected and costly surprises;
- Minimising our vulnerability to fraud and corruption;
- Freeing up management time from 'fire-fighting';
- Providing management with early warnings of problems;
- Ensuring minimal service disruption;
- Ensuring statutory compliance;
- Better targeting of resources i.e. focus scarce resources on high risk activity;
- Reducing the financial costs due to, e.g. service disruption, litigation, insurance premiums and claims, and bad investment decisions;
- Delivering creative and innovative projects; and
- Protecting our reputation.

Our Strategic Risk Management Objectives

- Strategic approach to risk management to make better informed decisions which is vital to successful transformational change;
- Setting the ‘tone from the top’ on the level of risk we are prepared to accept on our different service delivery activities and priorities. Understanding our ‘risk appetite’ and acknowledging that how we ‘think about risk’ will be different depending on the context of corporate impact and sensitivity;
- Risk management enables us be more consistent in options appraisals and more flexible/agile in delivering change. Risk aversion can result in the bar being set much higher for commissioning a change compared with maintaining the status quo;
- Acknowledging that even with good risk management and our best endeavours, things can go wrong. Where this happens we use the lessons learnt to try to prevent it from happening again;
- Developing leadership capacity and skills in having a clear understanding of the risks facing the Council and how we manage them;
- Risk management should be integral to how we run Council business/services. Risk management processes provide effective arrangements that identify and achieve successful local and national priority objectives;
- Supporting a culture of well-measured risk taking throughout the Council’s business, including strategic, programme, partnership, project and operational. This includes setting risk ownership and accountabilities and responding to risk in a balanced way, considering the level of risk, reward, impact and cost of control measures;
- Ensure that the Council continues to meet all statutory and best practice requirements in relation to risk management and continues to be a key and effective contributor to Corporate Governance and a satisfactory Annual Governance Statement;
- Effective monitoring and Board intelligence on the key risks facing the Council; and
- Good practice tools to support the Council in the management of risks.

What is the Council's Risk Appetite?

There are numerous definitions of organisational 'risk appetite', but it all boils down to how much of what sort of risk an organisation is willing to take. The HM Treasury definition being: *'The amount of risk that an organisation is prepared to accept, tolerate or be exposed to at any point in time.'* So why do we need to determine our risk appetite?

If managers are running the business with insufficient guidance on the levels of risk that are legitimate for them to take, or not seizing important opportunities due to a perception that taking on additional risk is discouraged, then business performance will not be maximised. At the other end of the scale an organisation constantly erring on the side of caution (or one that has a risk-averse culture) is one that is likely to stifle creativity and not necessarily encouraging innovation, nor seek to exploit opportunities.

A framework has been developed and implemented to enable risk judgements to be more explicit, transparent and consistent. By enhancing our approach to determining risk appetite we are able to raise the Council's capability to deliver on challenging targets to raise standards, improve service quality, system reform and provide more value for money.

This framework is considered by all levels of the business, from strategic decision making, to operational delivery.

How are our objectives going to be met?

The Council's objectives will be achieved by:

- Adopting good practice risk management principles, in line with the Institute of Risk Management Professional Standards 2015 and the International Risk Management Standard (ISO 31000 - 2009). The application of the standards and principles within it will be reviewed annually and amended accordingly to reflect key changes;
- Establishing clear roles and responsibilities and reporting lines within the Council for risk management;

- Incorporating risk management into the council's decision making and strategic management processes;
- Incorporating risk management into service/business planning, option appraisals, programme and project management, partnerships and procurement processes;
- The provision of risk management training, advice, detailed guidance and support and providing opportunities for shared learning; and
- The provision of a risk governance framework to ensure the adequacy and effectiveness of the identification, assessment, control, monitoring and review arrangements in place to manage risk. The framework will ensure that risk management is dynamic and responsive to change.

Monitoring and Review of Risk Management Activities (minimum requirements)

- A quarterly review of the Strategic Risk Register;
- A quarterly review of service area risk registers;
- A monthly review of programme/project/partnership risk registers;
- An annual review of the corporate Risk Management Policy Statement and Strategy;
- An annual report on risk management activity; and
- An annual review and report on the overall effectiveness of risk management and internal control by Internal Audit, which feeds into the Annual Governance Statement.

Accountabilities, Roles and Responsibilities

There needs to be clarity in terms of 'who does what' otherwise we will be exposed to risks being unmanaged, causing us damage or loss that we could otherwise influence, control or avoid. The key roles and responsibilities are outlined below:

Cabinet / Portfolio Holders
