

London Road and Black Dog Way

Montel Civil Engineering has been appointed by **Gloucestershire County Council** as the main contractor to deliver highways improvements and cycleways along London Road and Black Dog Way.

Construction has now commenced on Phase 2 (coloured yellow), on the footpath near St Peter's Church.

Phase 3A1 (shown in the grey) is scheduled to begin shortly. This phase includes improvements to the London Road footpath, east of the Great Western Road junction, and is due to start around 21st April.

This will be followed by phase 3B1 (the footway outside Roberts Limbrick building) from 27th May and phase 3B2, covering works on Northgate Street and the northbound Bruton Way.

If you have any specific queries, concerns or would like to be added to the mailing list:
Please contact: blackdogway@montel-group.com

Pedestrian diversions have been clearly signposted for each phase, with temporary signals installed at each of the crossing points marked on Plan B. The new pedestrian crossing facilities have been installed on Bruton Way and Black Dog Way to maintain safe pedestrian routes into the city, on Black Dog Way and London Road. Each route is clearly signposted by coloured way finding signs.

The existing traffic signals have been decommissioned, and a temporary new mini roundabout has been installed. There have been carriageway surfacing repairs to London Road and we have installed temporary road markings.

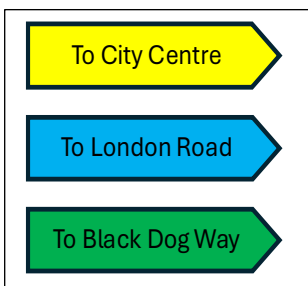

The bus stop on London Road, outside the Esso Garage, will be suspended during phase 2 at a date to be confirmed. This bus stop will then move permanently to Northgate Street.

Further night closures are expected in April, but these will be advertised in advance.

Regular stakeholder and resident communications are an important part of our community engagement. We are working closely with key local stakeholders to ensure that they are consulted and kept informed about the changes to the footpaths and highways as well as access to their properties. We are very grateful for their cooperation and patience during the works.

As part of our wider social values commitments, we will be working with local community groups, charities and schools. Much of our focus will be on the area closest to the site, but if there are any local community groups interested in working with us, please contact us on blackdogway@montel-group.com
