

# Attendance meeting: OFSTED

21/10/24

# OFSTED

- OFSTED – 30<sup>th</sup> September and 1<sup>st</sup> October 2024. **Attendance came out as a strength of the school**
- Talked about attendance as part of the behaviour meeting but really only a very small part of meeting.
- I shared what we do and how we monitor. They did not ask for anything extra.
- Weren't interested in this year's data (as only a month) and focused on last year.

# Context

- One form entry school in Cheltenham but have a large catchment from Gloucester
- Currently in line with Pupil Premium National Average (although we are normally above NA)
- Higher than average SEN
- Wide social demographic
- **Very poor attendance in 22/23 (below NA in all areas and FSM children at 88%)**
- **Much better attendance in 23/24 (above NA, FSM rose to 92.2% and persistent absentees dropped)**
- Have never issued a Penalty Notice

I got the impression it was an easy meeting because:

- Attendance has improved a lot and was above NA
- Myself, Pastoral Lead and admin officer meet weekly to discuss attendance with SENDCo included when needed – The inspectors liked the frequency of this and the fact there was a mixture of people discussing it each week. They said it showed we really thought carefully about ways to support our families.
- We were able to confidently talk about data and the story behind it. This was backed up in reports to governors and the data sheets we use.

#### Attendance data: 23-24

<b>Attendance of all children</b>		94.7%	<b>Attendance of FSM children</b>		92.2%	<b>Attendance of SEN children</b>		93.3%
<b>Absence of all children</b>		5.3%	<b>Absence of FSM children</b>		7.8%	<b>Absence of SEN children</b>		6.7%
