The Claimant Count is a measure of the number of people who are unemployed and claiming benefits. From 1996 until the recent introduction of Universal Credit, this was based on the number of people claiming Jobseeker's Allowance. However, since its introduction some unemployment benefit claimants will be claiming Universal Credit instead. **To reflect this change, the Claimant Count has been expanded to include people claiming Jobseeker's Allowance plus those who claim Universal Credit and who are searching for work.**

Gloucestershire is in the process of transitioning to full Universal Credit. This means a broader span of claimants will be required to look for work than previously under Jobseekers Allowance. As more people are brought within the coverage of Universal Credit, the Claimant Count is set to rise noticeably over time. This will happen irrespective of how the economy performs and is a feature of the design of Universal Credit which brings additional groups of people into 'Searching for Work' conditionality (and therefore the Claimant Count), to help encourage and support these claimants into work.

For more information about Universal Credit please see the [ONS website](https://www.ons.gov.uk/universal-credit).

## INTRODUCTION

The Unemployment Bulletin provides a monthly update on unemployment data for Gloucestershire, the South West region and the United Kingdom. It is produced by the Data & Analysis Team in the County Council's Planning, Performance and Change function. The data are sourced from the Office for National Statistics via Nomis ([www.nomis.co.uk](http://www.nomis.co.uk)). All data are rounded to the nearest 5 and may not precisely add to the sum of the number of people claiming JSA, and the number of people claiming Universal Credit required to seek work, due to independent rounding.

## PART 1: SUMMARY

**The claimant rate in Gloucestershire was 1.3% in May 2018.** This was a 0.8% decrease on the April 2018 figure. The South West rate and the UK rate both stayed the same at 1.6% and 2.2% respectively. Gloucestershire's rate was 0.3% lower than the South West average of 1.6%, and 0.9% lower than the UK average of 2.2%.

**The claimant count in Gloucestershire in May 2018 decreased by 40 people.** The amount of people claiming in May 2018 was 0.8% lower than the number in April 2018. This compares to a 4.8% decrease in the South West and a 2.4% decrease for the UK.

## PART 6: YOUTH UNEMPLOYMENT(18-24 year olds)

### Youth Claimant Rate and Claimant Count

Figure 15: Claimant Count for Gloucestershire over the past year

Figure 15 shows that in May 2018, 975 people aged 18-24 were claiming Job Seekers Allowance and Universal Credit who were not in work in Gloucestershire, this represents 19.6% of total working age claimants.

## PART 7: YOUNG PEOPLE NOT IN EDUCATION, EMPLOYMENT OR TRAINING (NEET) IN GLOUCESTERSHIRE

Data provided by Gloucestershire Youth Support Team on the situation of young people (16-18) in Gloucestershire who are not in education, employment or formal training.

Gloucestershire Youth Support Team is required to report performance with the 16-18 age range against nationally defined criteria for counting the NEET group. The NEET group includes young people actively seeking education, employment or training as well as those young people who are either not yet ready or who are unable to access these opportunities because of their personal circumstances. The figures quoted below include young people in both of these categories.

### Summary

At the end of May 2018 there were 345 young people aged 16-18 not in education, employment or training in Gloucestershire and this figure translates into an adjusted (\*) 16-18 NEET population of 2.77%. The total number of NEET young people decreased by 40 in May 2018 compared to April 2018, five districts saw a decrease in their figures and one district saw an increase.
