# A419 HIGHWAY IMPROVEMENTS

## NEWSLETTER DECEMBER 2019

### PROGRESS TO DATE

We have now completed road surfacing works on the Chipmans Platt phase of the scheme and all traffic management has been removed from the area. We will be completing the surfacing of the footpaths over the next few weeks.

Utility diversions for Energetics and Severn Trent Water are currently being undertaken at Oldends Lane and are due for completion in December. Final surfacing works will be undertaken in January 2020. We have also undertaken essential drainage repair works within the area.

Earthworks have commenced on the Horsetrough phase of the scheme with service diversions also being undertaken by both BT and Western Power Distribution. We have constructed a temporary footpath for the safe passage of pedestrians within this area.

### LOOK AHEAD PROGRAMME

Over the next month we will be undertaking the following works on the Horsetrough phase of the scheme:

- Diversionary works for BT and Western Power Distribution
- Bulk excavation and drainage works

We will also be completing footpath surfacing works at Chipmans Platt and Oldends Lane.

### ADVANCED WARNING

We will be undertaking night works on the Horsetrough phase of the scheme this week from Wednesday 4th December till Saturday 7th December 2019. The night works will be managed under 4 way lights, between 8pm and 6am to enable us to install ducts across the road in two locations.

Our site will close for Christmas on the 20th December and will re-open on 6th January. There will be no lane restrictions in place over the festive period. We wish you all a safe and peaceful Christmas and thank you for your patience and understanding whilst we have been undertaking these works.

### COMMUNITY ENGAGEMENT

Knights Brown alongside Gloucester's Highways department are supporting the CCP's annual Hamper Scamper. The initiative seeks to spread the spirit of Christmas and give hope by providing seasonal food parcels and children's gifts to those in need.
