

GRWW1 4c Jam

1. Make a list of jams that you have seen or eaten in the table below:

2. Visit a supermarket and look at the jam aisle.

- How many different types are there?
- How many single fruit jams are there?
- Are there any that use more than one type of fruit?
- What is the highest price? What is the lowest? Why do you think they are different? (Hint: look at the amount of fruit in each jam)

3. Look at a jar of jam you have at home and answer the following questions:

a. List the ingredients:

.....

.....

b. What is the fruit content of the jam? This might be given in a percentage or in weight.....

4. Research jam to answer the following questions:

- What are the main ingredients in most jams?
- What is a 'conserve'?
- What is a 'preserve'?
- What is 'marmalade'?
- How is jam made today?
