

Newspapers

Background

The earliest Gloucestershire newspaper was the Gloucester Journal, which was first published by Robert Raikes in 1722. Over the years various other newspapers were started, mostly in the late 1800s or early 1900s. Some of these are still published today.

Newspapers are an excellent source of information, but finding what you want can be difficult, especially if you do not know the date of an event. Earlier newspapers mainly carried national and international news. Birth, marriage and death announcements appeared in the Journal in 1835 and from the 1850s the news that was reported became more local. This included local events, obituaries, marriage announcements, court proceedings, council meetings, shipping news and coroner's reports. Photographs did not appear in the newspapers until the 1900s.
