KEY

Acquisition or dedication
agreement for public highway

NOTES

1. The land shown is based on OS tile base plans which may vary from actual topographical surveyed features. Any variations will require agreement with the Landowner to determine definitive boundaries.
2. The proposed land boundaries shown are based on the design as shown on drawing no. L1-100-06 Rev P2 "General Arrangement". This is subject to further design, consultation planning consent, and so may be subject to change.
3. The information on these plans indicates an approximation from multiple sources and its accuracy is constrained by the inherent limitations of Ordnance Survey information and Land Registry records. Suitable agreements should be made on site to establish exact requirements.
