

## Answers to fishing equipment word problems

Below are the answers to the real life word problems about the cost of the fishing equipment.

1. £87.00
2. 50 weeks or 11 months and 2 weeks
3. Items bought = £88.95, so there is £11.05 change
4. £84.75
5. £180 less 25% = £135 per net.  $£135 \times 2 = £270$ , so there is £30 change.
6. Set of fishing floats, fishing socks and a salmon lure.
7. £236.49
8. £411.87

Those who finish early can make up their own word problems using the information about fishing equipment prices. Try to use each of the four number operations!
