Assessment

Prompt: use plain, caring, family-friendly language. Capture what people have said, not professional assumptions

3. What we know and what matters

About me what am I good at, what do people like about me? Kiran says he doesn't like coming to school and gets 'freaked out'. He says that he gets anxious and feels that people don't like him. He has some friends in school and has loving parents. He likes Dragonball Z.	What help would I like? what I want to be different and what would help me? Kiran's attendance is very poor with anxiety being the cause of his unwillingness to come to school. When he is in, he is late due to the disruption at home.	Family voice what the family wants to change and what feels helpful? Mr and Mrs Khan are worried. They note Kiran will be awake late thinking about the next day which makes him very tired and difficult in the mornings. They want him to be able to go to school.
What has already been tried? support, adjustments, other plans and assessments in progress, informal help and impact so far Kiran has had some 1-2-1 time with Mr Bailey and this hasn't improved things	How will this plan improve our family's life? describe clear changes in everyday life. Kiran would attend school every day with a positive attitude and be in class on time.	Information sharing notes Consent, restrictions, privacy notice or minimum information sharing. NA

4. What is the child's story and why are we writing a plan?

Briefly describe what has led to this plan, using the child or young person's and family's own words wherever possible. Include strengths, what has changed, what people are worried about, significant events, what support has already been tried and why a coordinated plan is needed now.

Kiran is one of few children of colour in the school. His health is good and this problem started in December 2025 but has become much more apparent this academic year.

In December 2025 we noticed Kiran being more reluctant to attend class and reporting to his parents he was worried and felt unhappy. While his attendance wasn't the best for the rest of the year it was above 85% and some 1-2-1 sessions were put in which seemed to help. Kiran couldn't really identify his anxiety. Since the new year school year has started Kiran has been late every day and comes in tearful or on the verge of tears due to anxiety which is distressing for him and his parents. Kiran has met with the school nurse who has completed some anxiety work sheets with him which he enjoyed. He seemed to be more comfortable in a 1-2-1 setting than in a classroom. He was able to transition to the classroom after the time with the school nurse.

Plan

Record the priority needs, outcomes and actions. Keep the plan focused on the few things that matter most
