

Sandfield Academy

Public Information Drop-in Event

6th October 2026

An update on the project

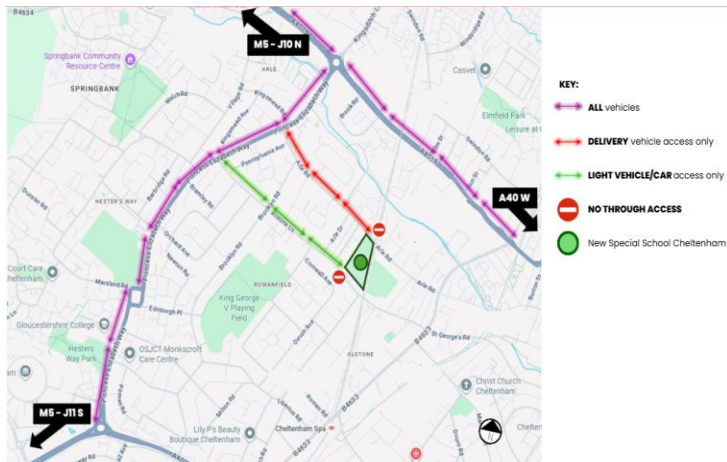

Over the last few months work has been progressing on developing the final design of the new school. Early site investigation and ecology works have taken place ahead of the main construction works commencing. This has involved ground investigation surveys and ecological works.

Project Timeline

The start of the main construction works are dependent on the discharge of planning conditions and the final design completion but likely to be towards the end of this year.

Site Access

The agreed route for all large deliveries to the site will be via the Arle Road entrance which will be the new school entrance in the final scheme. A temporary site car park will be formed at the Southern end of the site for contractor parking which will be accessed via Bryanstone Close.

Keeping you informed

Following commencement of the project a QR code will be set up with access to the Kier website and project information.

We will issue newsletter updates to neighbouring properties in the vicinity of the school throughout the construction period. If you are located elsewhere and would like the updates please contact the Kier team.

Key Contacts:

If you would like any further information from the Kier team a dedicated email address will be set up to monitor once the project becomes live.

This will be:
sandfieldacademy@kier.co.uk
