Public Transport Times to Nearest Pharmacy or Dispensing GP

Up to 15 mins

Up to 30 mins

Up to 45 mins

Over 45 mins

Blank Areas = impossible in specified parameters

These are theoretical minimum times (i.e. no traffic or red lights) which take no account of actual road conditions but which provide a consistent figure for comparisons. The Ordnance Survey Path network is used for walking journeys to the nearest bus stop. Some footpath networks in rural areas are not included e.g. Public Rights of Way
