Preparing for Back to School in September now: 6 top tips for schools

MOMENTS
MATTER,
ATTENDANCE
COUNTS.

It is essential that schools start 'back to school' preparation early – particularly for those transitioning from one school to another. Based off best practice from the attendance hubs and other schools with high attendance, we have developed some **top tips** for schools to begin preparing now to support pupils to have the strongest start possible in September.

1. **Identify pupils and cohorts who need support now:** Analyse last year's attendance data to pinpoint students needing extra help or encouragement before the new school year begins. Implement personalised plans, like [Wheeler Lane Technology College](#), to boost attendance.
5. **Keep attendance high until the end of year by motivating pupils and parents/carers:** Keeping students excited and engaged is key to promoting school attendance. For example, [Willows Primary Academy \(part of the DELTA Academies Trust\)](#) motivates students with attendance cards. Pupils earn stamps for attendance and punctuality, which translate into entries for a weekly prize draw. Keeping parents in the loop with **regular updates on their child's attendance data** can also help parents understand the importance of regular attendance and recognise the cumulative impact of taking a day or two off at a time. For example, [Icknield Infant and Nursery School](#) shares individual pupil attendance data during parents' evening, allowing parents and carers to see the aggregate impact of sporadic absences.
