## INTRODUCTION

The Unemployment Bulletin provides a monthly update on unemployment data for Gloucestershire, the South West region and the United Kingdom. It is produced by the Economic section of the County Council Chief Executive's Support Unit Research Team. The data is sourced from the Office for National Statistics via Nomis ([www.nomis.co.uk](http://www.nomis.co.uk)).

The claimant count measures the number of people claiming unemployment-related benefit (currently Job Seeker's allowance). The claimant rate is the number of claimants as a proportion of the working age population.

## PART 1: SUMMARY

**The claimant rate in Gloucestershire was 2.6% in July 2010.** This was the same as the June 2010 figure. The UK and South West rate also remained the same at 3.6% and 2.4% respectively. Gloucestershire's rate remains above the South West average of 2.4%, but 1.0% lower than the UK average of 3.6%.

**The claimant count in Gloucestershire in July 2010 decreased by 25 people.** The amount of people claiming in July 2010 was 0.3% lower than the number in June 2010 this compares to a 1.6% decrease in the South West and a 0.2% decrease for the UK.

**The year on year claimant count in Gloucestershire has decreased.** The count was 16% lower in July 2010 than at the same point in the previous year as shown in the graph below.

## PART 5: MAP SHOWING DISTRIBUTION OF CLAIMANT RATE ACROSS GLOUCESTERSHIRE

## PART 6: YOUNG PEOPLE NOT IN EDUCATION, EMPLOYMENT OR TRAINING (NEET) IN GLOUCESTERSHIRE

Data provided by Prospects, the Connexions service in Gloucestershire on the situation of young people (16-18) in Gloucestershire who are not in education, employment or formal training.

Connexions Gloucestershire is required to report performance with the 16-18 age range against nationally defined criteria for counting the NEET group. The NEET group includes young people actively seeking education, employment or training as well as those young people who are either not yet ready or who are unable to access these opportunities because of their personal circumstances. The figures quoted below include young people in both of these categories.

### Summary

As at the end of July 2010 there were 590 young people aged 16-18 not in education, employment or training in Gloucestershire and this figure translates into an adjusted (\*) 16-18 NEET population of 4.3%. The total number of NEET increased by 8 young people in July 2010 compared to June 2010. However, 3 Districts saw a reduction in their NEET figure.
