england

The scheme to improve capacity of the A40 / A417 Over Roundabout has continued in recent weeks and whilst the weather has been good to us, ground conditions have been unfavourable for piling.

*A40 Westbound Splitter Island  
realigned with new kerbs and  
surfaced to finished level.*

*A417 Eastbound Sheet piles  
installed and awaiting driving to  
level*

Works have included:

- Realigning the four splitter islands approaching the roundabout.
- New road construction at the splitter islands
- Installation of temporary surfacing, to allow the additional movement of traffic, giving more room for the verge widening works
- Completion of drainage repair works on the A417 Maisemore road.
- Installation of traffic signal and street lighting ducting works.
- New gully and drainage repairs to the A40 Westbound splitter approach

Please use this QR code to find out more via the Britannia website  
or use the below link for access to the GCC website:  
<http://www.gloucestershire.gov.uk/A40-Over>

If you have any concerns or issues regarding the roundabout improvement scheme, please contact me. I will be available throughout the construction phase to provide continuous liaison and engagement with both businesses and residents within the local area.
