The Claimant Count is a measure of the number of people who are unemployed and claiming benefits. From 1996 until the recent introduction of Universal Credit, this was based on the number of people claiming Jobseeker's Allowance. However, since its introduction some unemployment benefit claimants will be claiming Universal Credit instead.

**To reflect this change, the Claimant Count has been expanded to include people claiming Jobseeker's Allowance plus those who claim Universal Credit and who are out of work.** For more information about Universal Credit please see the [ONS website](http://www.ons.gov.uk).

## INTRODUCTION

The Unemployment Bulletin provides a monthly update on unemployment data for Gloucestershire, the South West region and the United Kingdom. It is produced by the Strategic Needs Analysis Team in the County Council's Strategy and Challenge function. The data is sourced from the Office for National Statistics via Nomis ([www.nomis.co.uk](http://www.nomis.co.uk)).
