

Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required?

Site is uneven and extremely overgrown. Trenches have been dug in the field parallel with Public Footpath MST30 which cannot be seen easily. Derelict caravans have been situated at various points which are now in a state of decay and vandalism. Sturdy footwear recommended.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

No.

3. Is the site remote and/or can it be seen from other highways or rights of way?

Most Order routes can be seen from MST30, MST56 or MST62.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

Good mobile phone signal.

5. Is the right of way easily accessible? Will arrangements for access by the Inspector need to be made in advance?

Order routes are easily accessible over yellow and blue land due to existing footpaths. Permission has already been granted for access to yellow land however and the same will be sought for the green and blue.

6. Are there any dangerous pieces of equipment or substances stored at any point along the right of way?

Derelict caravans have been situated at various points which are now in a state of decay and vandalism.

7. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No.
