

Unemployment Bulletin

Issue 145 August 2020

Notes on Claimant Count (Experimental Statistics) from ONS:

These Claimant Count Experimental Statistics relate to 13 August 2020. Enhancements to Universal Credit as part of the UK government's response to the coronavirus (COVID-19) mean that an increasing number of people became eligible for unemployment-related benefit support, although still in work. Consequently changes in the Claimant Count will not be wholly because of changes in the number of people who are not in work. We are not able to identify to what extent people who are employed or unemployed have affected the numbers.

The Claimant Count is a measure of the number of people who are unemployed and claiming benefits. From 1996 until the recent introduction of Universal Credit, this was based on the number of people claiming Jobseeker's Allowance. However, since its introduction some unemployment benefit claimants will be claiming Universal Credit instead. **To reflect this change, the Claimant Count has been expanded to include people claiming Jobseeker's Allowance plus those who claim Universal Credit and who are searching for work.**

Gloucestershire is in the process of transitioning to full Universal Credit. This means a broader span of claimants will be required to look for work than previously under Jobseekers Allowance. As more people are brought within the coverage of Universal Credit, the Claimant Count is set to rise noticeably over time. This will happen irrespective of how the economy performs and is a feature of the design of Universal Credit which brings additional groups of people into 'Searching for Work' conditionality (and therefore the Claimant Count), to help encourage and support these claimants into work.

For more information about Universal Credit please see the [ONS website](#).

INTRODUCTION

The Unemployment Bulletin provides a monthly update on unemployment data for Gloucestershire, the South West region and the United Kingdom. It is produced by the Data & Analysis Team in the County Council's Planning, Performance and Change function. The data are sourced from the Office for National Statistics via Nomis (www.nomis.co.uk). All data are rounded to the nearest 5 and may not precisely add to the sum of the number of people claiming JSA, and the number of people claiming Universal Credit required to seek work, due to independent rounding.

PART 1: SUMMARY

The claimant rate in Gloucestershire was 5.1% in August 2020. The South West and UK rates increased to 5.4% and 6.5% respectively. Gloucestershire's rate was 0.3% lower than the South West average of 5.4%, and 1.4% lower than the UK average of 6.5%.

The claimant count in Gloucestershire in August 2020 increased by 925 people. The amount of people claiming in August 2020 was 5.0% higher than the number in July 2020. This compares to a 3.3% increase in the South West and a 3.2% increase in the UK.

PART 6: YOUTH UNEMPLOYMENT(18-24 year olds)

Youth Claimant Rate and Claimant Count

Figure 15: Claimant Count for Gloucestershire over the past year

Figure 15 shows that in August 2020, 3,800 people aged 18-24 were claiming Job Seekers Allowance and Universal Credit who were not in work in Gloucestershire, this represents 19.5% of total working age claimants.

PART 7: YOUNG PEOPLE NOT IN EDUCATION, EMPLOYMENT OR TRAINING (NEET) IN GLOUCESTERSHIRE

Data provided by Gloucestershire Youth Support Team on the situation of young people (16-18) in Gloucestershire who are not in education, employment or formal training.

Gloucestershire Youth Support Team is required to report performance with the 16-18 age range against nationally defined criteria for counting the NEET group. The NEET group includes young people actively seeking education, employment or training as well as those young people who are either not yet ready or who are unable to access these opportunities because of their personal circumstances. The figures quoted below include young people in both of these categories.

Summary

At the end of August 2020 there were 402 young people aged 16-18 not in education, employment or training in Gloucestershire and this figure translates into an adjusted (*) 16-18 NEET population of 3.15%. The total number of NEET young people increased by 2 in August 2020 compared to July 2020, two districts saw a increase in their figures, two districts saw a decrease and two districts stayed the same.
