

SEVERN PROJECT

Guidelines for the use of 'Mental maths questions from Severn sources'

Activity title: Mental maths questions from Severn sources
Curriculum area: Maths
NC objectives: Maths: Ma1 1e), i), 2c), 3a), d), e), f) & h)
Main learning objective: To be able to work mentally to work out answers to questions from varying mathematical areas.

Lesson plan ideas, activities and resource sheets

The mental maths questions have been written to be used as additional problems using specific operators or themes.

Note: 2.6k 'Multiplication and division Severn word problems' require written working rather than pure mental working and can be used as additional or more complex problems.
