

London Road and Black Dog Way Newsletter – Advance Notice of Pedestrian Route Relocation

Montel Civil Engineering has been appointed by Gloucestershire County Council as the principal contractor to deliver highway and cycleway improvements along London Road and Black Dog Way.

As mentioned in our previous newsletter, we are nearing completion of the current work Phases 3A2, 4B and 3B1 and will be moving into our new work Phase 4A from 17th September, relocating the current pedestrian routes to the southern side of London Road.

The pedestrian crossing facility on Black Dog Way will be relocated to Bruton Way, and the pedestrian route will be diverted onto the southern footway. Existing pedestrian crossings on London Road will remain in operation, but the crossing point between Great Western Road and Alvin Street will be relocated and will be sited between Alvin Street and Oxford Street to support safe pedestrian movement throughout the works.

The one-way system will remain in place to facilitate the works on the northern footway to allow completion of the remaining work phases.

We continue to work closely with local stakeholders and businesses to ensure they are consulted and kept informed of changes affecting the local highway and footway network. We would like to thank all stakeholders for their continued cooperation and support.

We apologise for any inconvenience this may cause and greatly appreciate your patience and cooperation while these important works are carried out.

If you have any questions, please contact us at **customerservice@montel-group.com** or Gloucestershire County Council at **majorprojects@gloucestershire.gov.uk**.

Thank you for your patience while we carry out these important improvements.

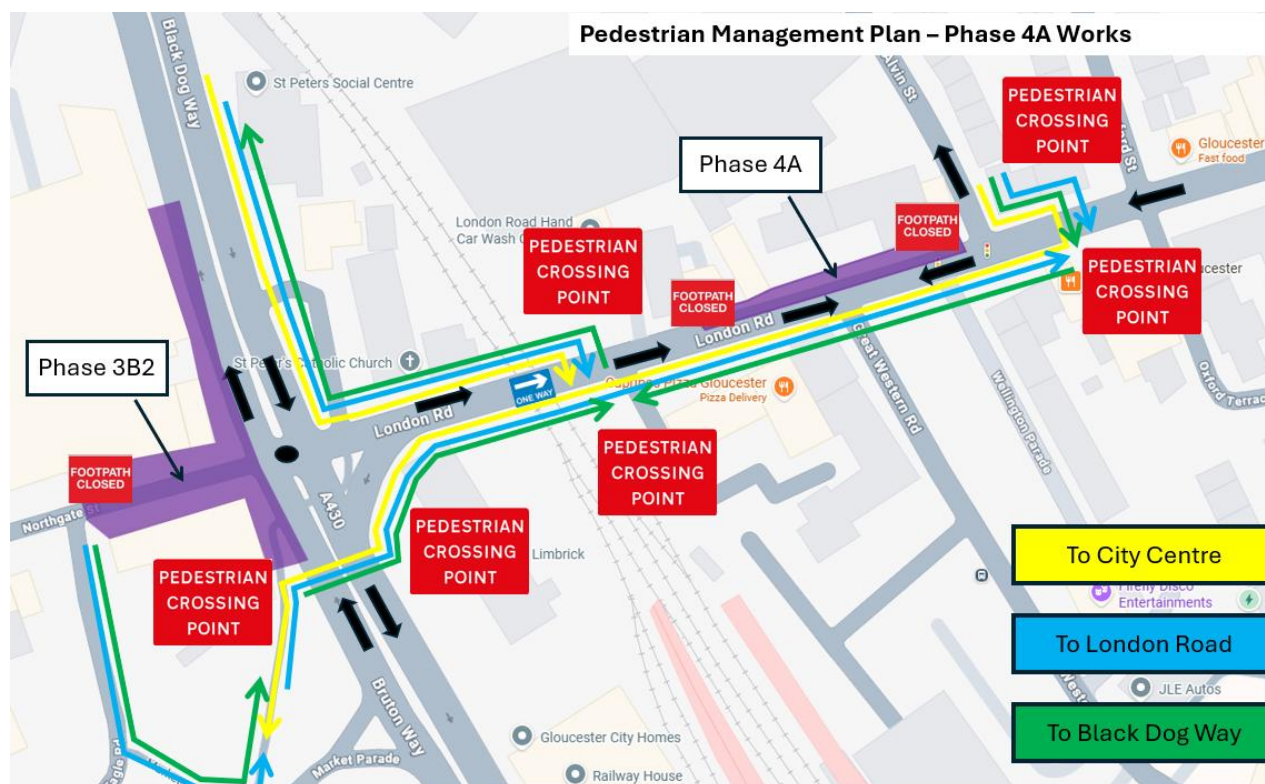

Kind regards,

Montel Civil Engineering Team
