Arle Court Transport Hub

Expanding and improving services and facilities to deliver a modern transport hub in Cheltenham

June 2023

Welcome to our first community newsletter about the new Arle Court Transport Hub.

As you may have noticed, construction work has now started on-site. Kier has recently been appointed to construct this important project on behalf of Gloucestershire County Council. We will be sharing regular updates with you via newsletters and on our dedicated website between now and until the scheme is due to be completed in summer 2024.

We will always try our best to cause minimal disruption to our neighbours and will notify you in advance of anything that may impact upon you.

If you would like to contact us about the scheme, please email arlecourthub@kier.co.uk.

Arle Court Transport Hub

An update on your project

Once complete, the upgraded transport hub will offer additional bus services and better connections to local sustainable transport such as walking and cycling routes.

It will also provide a range of new and improved facilities on site. These include:

- A covered waiting area with seating
- Real-time information screens and information desk
- An indoor waiting area with the opportunity for a refreshments facility
- Electric vehicle charging points
- Toilets including a dedicated Changing Places toilet

The scheme is being funded by UK Government's Housing Infrastructure Fund (HIF), administered by Homes England, and by Gloucestershire County Council

Site opening hours

09:00 - 17:00 Monday – Friday
Out of hours contact telephone number
