The dimensions of deprivation used to classify households are indicators based on four selected household characteristics:

**Education** - A household is classified as deprived in the education dimension if no one has at least level 2 education and no one aged 16 to 18 years is a full-time student.

**Employment** - A household is classified as deprived in the employment dimension if any member, not a full-time student, is either unemployed or disabled.

**Health** - A household is classified as deprived in the health dimension if any member is disabled.

**Housing** - A household is classified as deprived in the housing dimension if the household's accommodation is either overcrowded, in a shared dwelling, or has no central heating.
