Dear Sirs,

New Roads and Street Works Act 1991

## Stopping Up Order / Footpath Diversion / Extinguishment / Gating Order

### No Objection

We refer to the below or attached order and confirm that we have no objections

**Please email Stopping Ups to [osm.enquiries@atkinsglobal.com](mailto:osm.enquiries@atkinsglobal.com)**

**To enable us to process your application as quickly as possible, please ensure you include Grid References.**

A copy of the Cable and Wireless process 4461 'Special Requirements relating to the external plant network of Cable and Wireless UK Services Ltd' is available on request. The process provides guidance on working in the vicinity of Cable and Wireless's apparatus.

#### **IMPORTANT - PLEASE READ = Your Next Step?:-**

Where apparatus is affected and requires diversion, please send all the scheme related proposals that affects the Vodafone Network to [c3requests@vodafone.com](mailto:c3requests@vodafone.com) with a request for a 'C3 Budget Estimate'. Please ensure you include a plan showing proposed works. (A location plan is insufficient for Vodafone to provide a costing). These estimates will be provided by Vodafone directly, normally within 20 working days from receipt of your request. Please include proof of this C2 response when requesting a C3 (using the 'forward' option). Diversionary works may be necessary if the existing line of the highway/railway or its levels are altered.

This response is made only in respect to electronic communications apparatus forming part of the Vodafone Limited electronic communications network formerly being part of the electronic communications networks of Cable & Wireless UK (now re-named Vodafone Enterprise UK), Energis Communications Limited, Thus Group Holdings Limited and Your Communications Limited.

#### **PLEASE NOTE:**

The information given is indicative only. No warranty is made as to its accuracy. This information must not be solely relied upon in the event of excavation or other works carried out in the vicinity of Vodafone plant. No liability of any kind whatsoever is accepted by Vodafone, its servants, or agents, for any error or omission in respect of information contained on this information. The actual position of underground services must be verified and established on site before any mechanical plant is used. Authorities and contractors will be held liable for the full cost of repairs to Vodafone's apparatus and all claims made against them by Third parties as a result of any interference or damage.

On Wed, 3 Sep [REDACTED]  
[REDACTED] Gerard,

In light of an objection to this Public Path Diversion Order under Section 119 of the Highways Act 1980, we will be submitting the Order to the Secretary of State for Environment for determination. The Secretary of State appoints the Planning Inspectorate to consider the proposals and the objections and their decision will be made in due course.

Below is a link to a document produced by the Planning Inspectorate, entitled Guidance on Procedures for Considering Objections to Definitive Map and Public Path Orders, which you may find useful:

Hi,

I wish to register my support for this application. I use this path regularly and indeed already use the route proposed rather than walk through the garden of Trench Hill. As far as I can see there will be no increased inconvenience to myself using the proposed amended route for this public footpath.

For the attention of the Principle Right of Way Officer ,

I am writing re the change of route for the above footpath.

I have been walking the permissive path into the field fairly regularly ,as opposed to the footpath up the drive , ever since the permissive route was opened,as a way to access the lovely Sheepscombe woods.

It is no inconvenience at all ,infact I prefer the permissive route ,as depending on the time of day I use it and if the sun is out ,I am walking in the sun rather than the shade up the wooded drive and you get a lovely uninterrupted view from the top of the field before entering the wood.

I am sure most walkers would be of the same opinion and I would welcome the change being made official that the footpath route goes through the field rather than up the drive.

Best Wishes

The proposed diversion of this footpath is entirely sensible and will not be substantially less convenient to the public. In fact, it could be argued that the proposed new route is a more convenient route.

I'm contacting you in reference to this proposed footpath diversion. I see no problem whatever with the proposed new route which has been available for several years and is already used by almost everyone anyway. It is clear from a site visit that the "new" route will not be substantially less convenient to the public in consequence of the diversion.

Hi [REDACTED]

I appreciate you don't make the rules, but this appears wholly disproportionate.

Involving the Secretary of State and the Planning Inspectorate for determination on such a straightforward matter seems totally unnecessary. Your email suggests that only one objection has been raised. As such, this seems a significant waste of resource to move a footpath from a private garden (which, incidentally, opens to raise a considerable sum annually for charity) to a field which is only 20m away.

But I understand you must work to the procedures.

Please ask the Planning Inspectorate to keep me informed of progress.

Thank you for keeping me informed.

Hi

I noticed the sign about this footpath whilst walking today. I regularly walk in this area, and have done for many years. I'm more than happy with the route, through the field, that myself and countless others use.

It seems a bit daft to otherwise have a footpath up some poor persons driveway.

Thank you

Dear Sir

Having seen the proposed new footpath application at Trench Hill Sheepscombe I consider the new path will not substantially be less convenient to the public in consequence of the diversion.

Trench Hill gardens have been beautifully developed by the current owners over the years and the new proposed footpath would enhance the pleasure for the visiting public. The gardens are regularly open to the public by the owners and all donations go to charity.

I consider the proposed new path would improve the benefit to the public when visiting these beautiful gardens and would support the application.

My husband and I have used the footpath in question for over fifty years as we live in Sheepscombe and walk our dogs two or three times a week along it. We both support the proposed diversion as it will not affect our enjoyment of the walk.

I wish to register my support for the proposed re-routing of the footpath as per the above referenced Order. I am familiar with the footpath in question and I am convinced the diversion will not be substantially less convenient to the public in consequence of the diversion.

Hi [REDACTED]

In light of an objection to this Public Path Diversion Order under Section 119 of the Highways Act 1980, we will be submitting the Order to the Secretary of State for Environment for determination. The Secretary of State appoints the Planning Inspectorate to consider the proposals and the objections and their decision will be made in due course.

Below is a link to a document produced by the Planning Inspectorate, entitled Guidance on Procedures for Considering Objections to Definitive Map and Public Path Orders, which you may find useful:

Please could you let me know if you would like the Planning Inspectorate to keep you informed of progress of the diversion order. If I do not hear back from you I will assume you don't wish to be kept updated on progress.

Kind regards,

I fully support the application to divert the foot path at Trench Hill .I have lived near by for 45years and being a long time dog owner have walked the proposed path on countless occasions ,it is a very popular walk for Villagers and Visitors and is often used by Duke of Edinburgh students.

It will not be substantially less convenient to the public in consequence of a diversion.

I don't need to be informed of the planning Inspectors decisions , thanks any way.

I would add that my support for a change of route has increased,since being aware that people .  
avoid the walk so as not to invade the residents private space and deprive them of  
the quiet enjoy ment of there home.
