

# CLAIMANT UNEMPLOYMENT DATA

## for September 2015

### October 14<sup>th</sup> 2015 Release

The Claimant Count is a measure of the number of people who are unemployed and claiming benefits. From 1996 until the recent introduction of Universal Credit, this was based on the number of people claiming Jobseeker's Allowance. However, since its introduction some unemployment benefit claimants will be claiming Universal Credit instead. For more information about Universal Credit please see the [ONS website](#).

To reflect this change the Unemployment Data Release and Unemployment Bulletin will include two measures:

- **Estimated Claimant Count\*** - combines claimants of Job Seekers Allowance and Universal Credit claimants who are not in work.
- **Job Seekers Allowance** claimants only.

**The estimated Claimant Count\* in the County increased by 18 persons to 4,024 a rate of 1.1%.**
