**Privacy Notice – Spatial Development Strategy informal engagement**

Gloucestershire County Council is carrying out informal engagement to help develop the Gloucestershire Spatial Development Strategy.

Taking part in this engagement is entirely optional. You do not have to answer any of the questions, and you can choose which questions you wish to answer.

We will not ask you to provide your name or other information that directly identifies you as part of your engagement response. Any information you choose to provide about yourself, such as information about your health needs or personal circumstances, will be collected anonymously and will not be linked to your identity.

If you register to attend one of our Microsoft Teams engagement sessions, we will collect your name and email address for the purpose of managing your registration and attendance. This information will be deleted immediately after the session and will not be linked to your engagement responses.

Your anonymous responses will be used to help inform the development of the Gloucestershire Spatial Development Strategy and will be shared with the Spatial Development Strategy team for analysis.

When we report on the engagement, responses will be combined and reported in a way that does not identify individual respondents. We may use individual comments where they help to illustrate the feedback we have received, but these will not be attributed to you.

For further information, including your rights under GDPR and the Data Protection Act, please visit our Privacy notice page: https://www.gloucestershire.gov.uk/council-and-democracy/data-protection/service-specific-privacy-notices/
