

London Road and Black Dog Way Scheme

Dear Resident / Business Owner,

Advance Notice of Overnight Road Closures on London Road/Black Dog Way & Bruton Way 9 to 13 March 2026

Montel Civil Engineering, working on behalf of Gloucestershire County Council, will be carrying out essential works as part of the London Road and Black Dog Way scheme.

We are writing to inform you about the planned overnight closures of London Road, Black Dog Way and Bruton Way junction. These closures are required to safely complete carriageway crossings, drainage surveys, decommission traffic signals, and carry out surfacing and road marking installation ahead of the next phase of works.

To minimise disruption, the closures will take place overnight from **Monday 9 March to Friday 13 March (inclusive)**, between the hours of **20:00 and 06:00**. The road will reopen as normal outside of these times.

The schedule and specific access arrangements are as follows:

- Black Dog Way closed at the junction of Gouda Way/Worcester Street junction.
- Bruton Way closed at the junction adjacent to Gloucester Transport Hub.
- London Road closed at the junction of Great Western Road.

Drawings showing the extent of the closure and diversion route are provided on page 2.

Access for emergency services will be maintained at all times.

Please note that from **Saturday 14 March**, a new temporary traffic layout will be introduced at the junction as shown on page 3. As part of these changes, the existing traffic signals will be removed and a temporary mini-roundabout will be put in place. This arrangement will remain in place until the later phases of the project.

If you have any specific queries, concerns or would like to be added to the mailing list:
Please contact: customerservice@montel-group.com

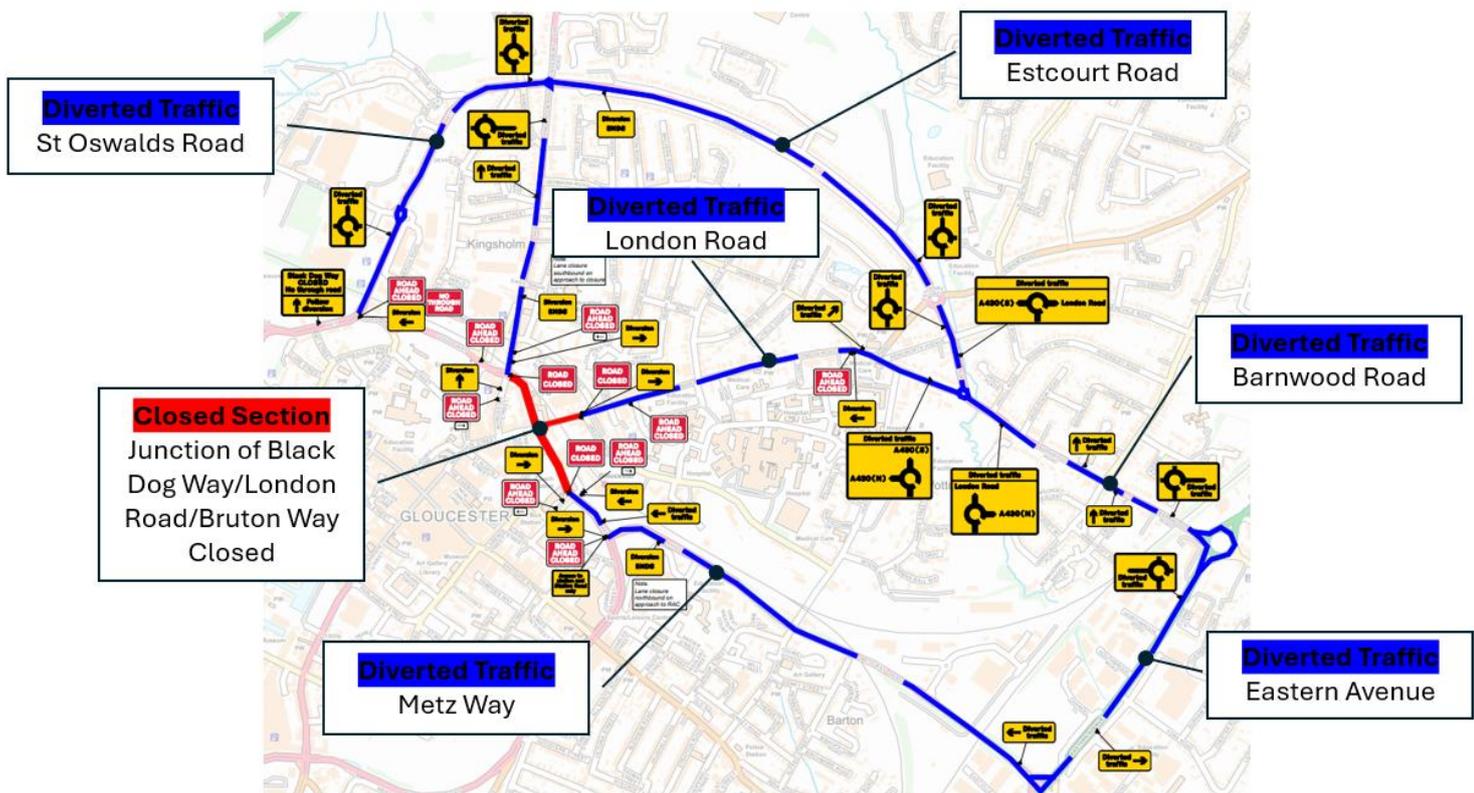

We kindly ask all road users to approach the junction with care while everyone gets used to the new temporary layout.

We understand that road closures, particularly overnight works, can be disruptive. Please be assured that we will take all possible measures to minimise noise and inconvenience to nearby residents.

Kind regards,
Montel Civil Engineering Team

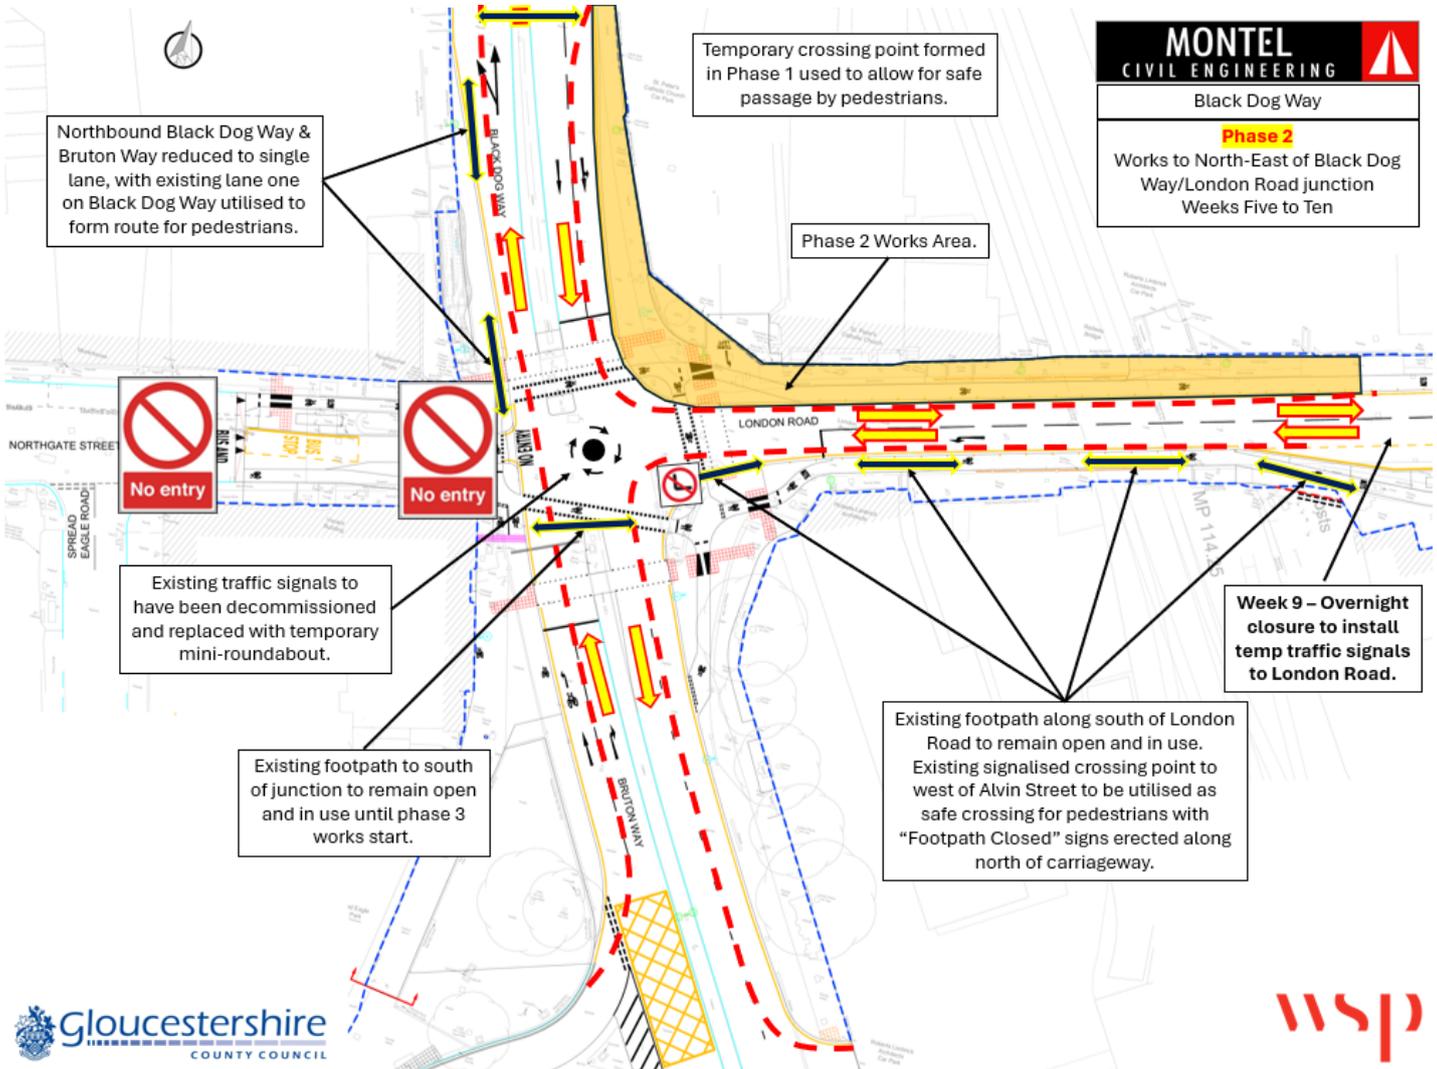

Closure Monday 9th to Friday 13th March
