

CLAIMANT COUNT DATA

for March 2020

April 21st 2020 Release

The Claimant Count is a measure of the number of people who are unemployed and claiming benefits. From 1996 until the recent introduction of Universal Credit, this was based on the number of people claiming Jobseeker's Allowance. However, since its introduction some unemployment benefit claimants will be claiming Universal Credit instead. To reflect this change, the Claimant Count has been expanded to include people claiming Jobseeker's Allowance plus those who claim Universal Credit and who are searching for work.

Gloucestershire is in the process of transitioning to full Universal Credit. This means a broader span of claimants will be required to look for work than previously under Jobseekers Allowance. As more people are brought within the coverage of Universal Credit, the Claimant Count is set to rise noticeably over time. This will happen irrespective of how the economy performs and is a feature of the design of Universal Credit which brings additional groups of people into 'Searching for Work' conditionality (and therefore the Claimant Count), to help encourage and support these claimants into work.

For more information about Universal Credit please see the [ONS website](#).

The Claimant Count* in the County decreased by 5 persons to 7,890 a rate of 2.1%.

The Claimant Count* in Great Britain **increased** by 19,415 persons to **1,245,270** a rate of **3.1%**.

Gloucestershire's Claimant Count* rate **remained the same** as last month at **2.1%**.

All districts saw an **increase** in the estimated number of unemployed claimants since last month, except the Forest of Dean and Stroud which both saw a decrease, and Gloucester which saw no change.

The number of males unemployed in the County stands at **4,585 (2.4%)**, which represents an **increase** on last month. The number of females unemployed stands at **3,310 (1.7%)**, which represents a **decrease** on last month.

* Numbers are rounded to the nearest 5 and may be revised.

The figures quoted above cannot be compared with:

- 1) the UK figure of **1.36 million** unemployed at a rate of **4.0%**. This is based on the International Labour Organisation (ILO) definition of unemployment. It is obtained from an ongoing national household survey and updated on a quarterly basis.
- 2) the seasonally adjusted unemployment claimant count (which includes claimants of Jobseekers Allowance and Universal Credit) for the UK of **1.2 million** at a rate of **3.0%**.

NB: These figures cannot be replicated at a local level

Note:

The claimant count figures contained in this release refer to the reference period of the 12th March, so will not reflect changes since this date.
