Gloucestershire County Council

Dear Sirs,

Re: Public Path evidence Form, Item 9, Other Information.

During the period 1967 to 1975, I lived at 23 Libertus Road, Cheltenham, and was a member of the North Gloucestershire Naturalists Society, and the Gloucestershire Trust for Nature Conservation, now the Gloucestershire Wildlife Trust.

As a member (later, a Council Member) of the GTNC, I was instrumental in establishing a nature reserve at the Great Witcombe Reservoirs; the GTNC had a joint agreement with "the water board" – I can't remember what its exact title was in those days – that we could have access to the margin land surrounding the water of the upper reservoir, as far as the fence.

I became Secretary of the Management Committee "in charge of" the reserve at the reservoir, and our tasks – per the GTNC – were to record the flora and fauna of the area, and provide facilities for the Great Crested Grebes; we created a number of rafts for these birds to nest on, which proved very successful.

During this period, we had unimpeded access to the reservoirs, via the path in question (marked A to B on the map) both on foot, and by car. There was no suggestion made to me at the time that this was a private right of way. I estimate that I visited the reservoirs during those years, on average, at least once a month.

You may find reports of this activity in the records of the Gloucestershire Wildlife Trust.

Yours faithfully,

PUBLIC PATH EVIDENCE FORM

During the time I was Rector of Great Witlecombe, all the public footpaths on Witlecombe Estate (+ elsewhere) were a great asset to my ministry: especially the Footpath + Bridleway referred to on your Public Path Evidence Form indicated A-B.

Professionally Access to church goes who lived beyond the parish boundaries + beyond A-B:-

Two families at Pendale + at Groys Court, Pether + Pether.

The Griffith family living at "Brydone" Coopers Hill

Pagets in Witlecombe Farm (3 generations)

Cullis' in Reservoir Lodge (2 generations)

Mason family by Witlecombe Villa

On several occasions we held Rogation Processions + services, beginning at the village hand-water pump in the garden of Earthing Cottage, proceeding along A+B for stations at Witlecombe Farm, on the Reservoir Causeway, + to the fields west of Reservoir Lodge. We returned to church at Great Witlecombe via B to A.

The 5th Sunday after Easter was when the Annual Rogation was held, but sometimes not at the Reservoir.

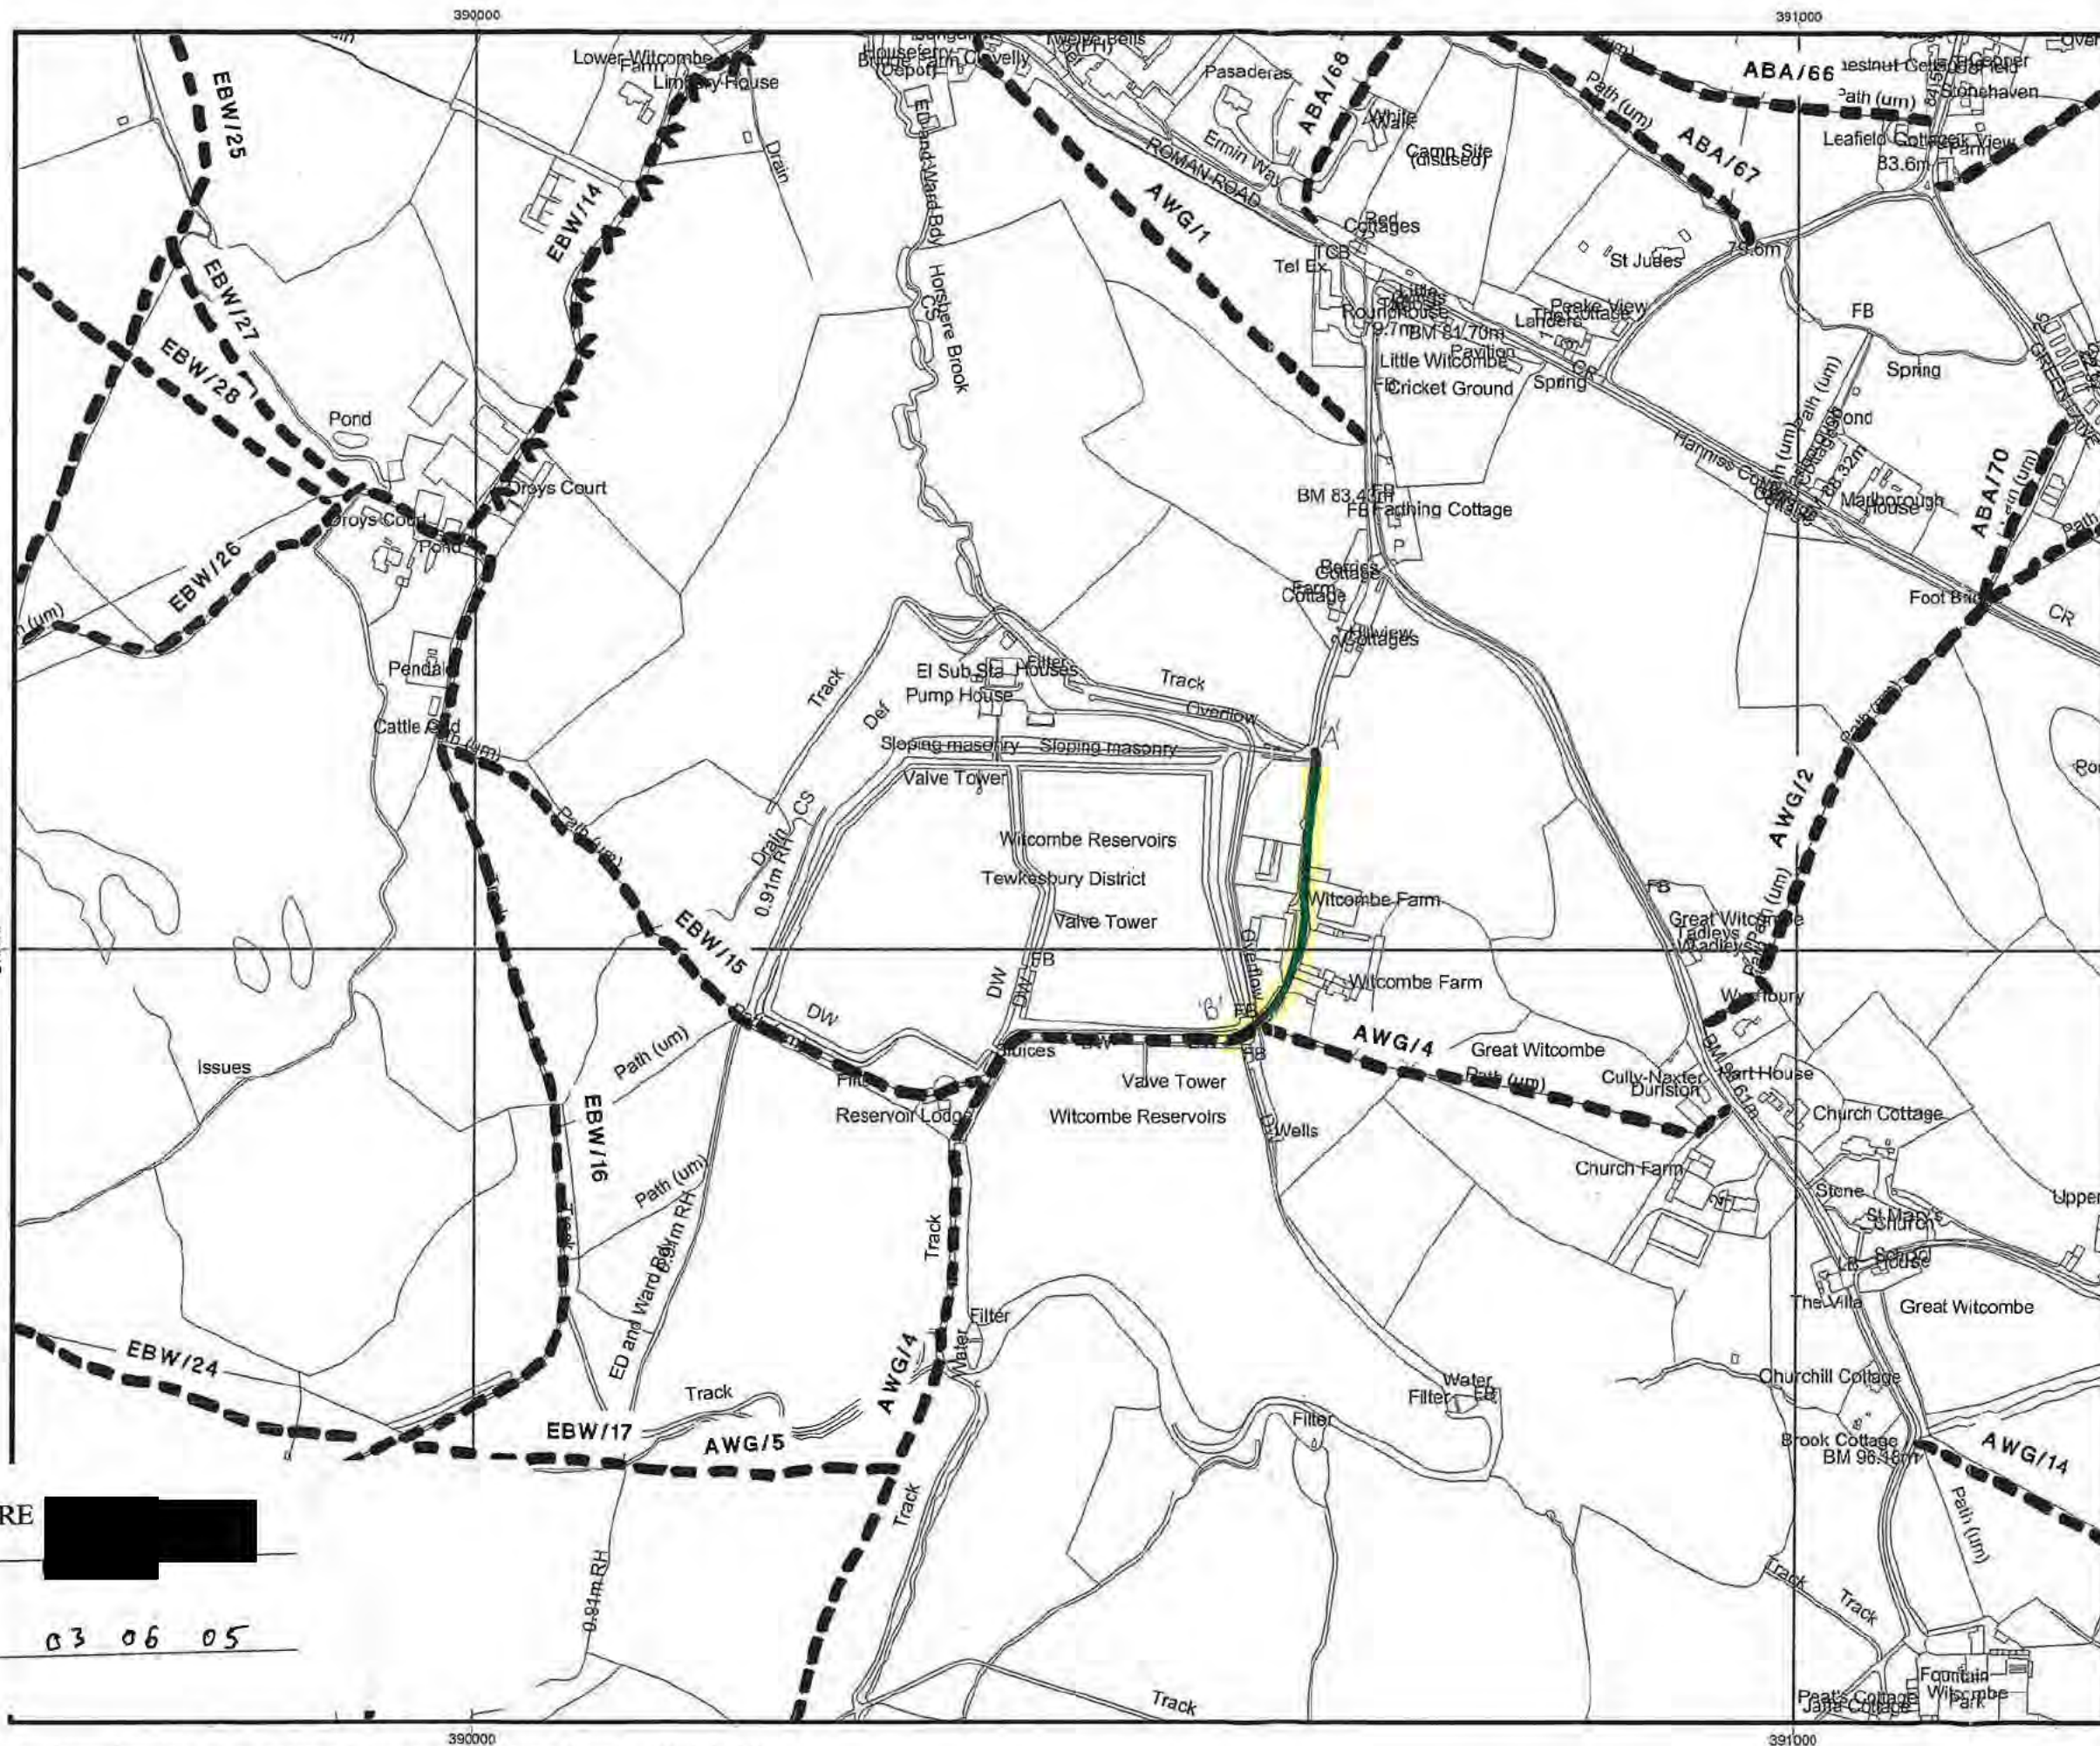

Recreationally My family + I made regular visits to the reservoir via A+B + B to A back again. Most frequently during school holidays - but it was an interesting + refreshing place to walk. A to B also afford access to footpaths leading up to Chase-rolling site (now not used as such)

I had the good fortune to know both Percy + Steven Cullis who were custodians living at the reservoir. Together with two ornithologists Jack Peake + Julian Comrie we built + floated ~~floating~~ islands for water birds to nest on.

Jack + Julian persuaded the Gloucester Wildlife Trust to establish the area beyond A+B an official reserve - which is so still.

Since my retirement in 1991 I have continued to walk + enjoy use of footpath A-B as access to the reservoirs, although I am a handicapped walker now + cannot manage the walking there.

Mr and Mrs Hicks-Beach regularly saw my family and me walking on this path (following the move to their farm in the early 80 s), conversed with us and, on one occasion, Mrs Hicks-Beach invited my toddler son and me into their stables to observe the Cheltenham College girls with their horses. However, following the death of Mr Hicks-Beach , Mrs Hicks-Beach's personality has changed considerably, and she has gradually become more possessive and obstructive regarding the footpaths. An example of this ^{change} was in 2004 when a gentleman, who is severely disabled, rented a cottage from her for a short holiday. We understand he had told her that he would be driving down from London after work and would arrive late at night. However, there was no key and the door was locked. He asked at the large house nearby, who gave him Mrs Hicks-Beach's phone number, but she refused to give him the key that night, making it necessary for this severely disabled man to drive all the way back to London and return the next day.

My family and I have used this path regularly (for much of the time on a daily basis) since 1957-2005 and have on no occasion been told not to use it. Mr and Mrs Hicks-Beach's two elder children (Andrew and Lucy) have always been very friendly , as were the Pagets. Andrew invited us in for a cup of tea and a chat on one occasion too, and asked us to visit again. The alternative routes preclude anyone with a disability (eg even with a slightly painful back) from using them, as they are virtually impassable at times (I have 'lost' wellies, or got my feet soaked in walking boots, as the mud comes over the tops) and it is risky to go through with dogs ! I agree with everything else that Dr Gilbert has mentioned in his letter, and am on the Great Witcombe electoral register, as I regularly attend Great Witcombe Church.

Everyone has the right to enjoy the reservoirs, the environment, the wildlife and the spectacular scenery. It was created for all of us to enjoy!
