

A419 GLOUCESTER HIGHWAY IMPROVEMENTS UPDATE - SEPTEMBER 2019

PROGRESS TO DATE...

The Severn Trent Water diversion has now been completed allowing works to progress on the approach to Chipmans Platt roundabout from the M5. We are still waiting for the gas main diversion to be completed on the west bound approach. Once completed we will be able to finish our work in this section and move onto the final surfacing of the roundabout.

We are still awaiting utility diversions to be done at Old Ends Lane which once completed will allow us to continue works within the area. To avoid project delays we are continuing to re-sequence and programme our work around these diversions as much as possible.

The night shifts that have finished at Old Ends Lane have now been completed. Further night working will be required as the programme progresses but advanced warning of this will be provided. We thank you for your patience and understanding whilst these works are being undertaken.

Surfacing works at Chipmans Platt and Old Ends Lane roundabout are currently planned to take place in Mid November. We will provide more detailed information on this in our next update.

Service diversion works will begin at Horsetrough roundabout over the next few weeks. This work will not require traffic management and should cause minimal disruption.

Widening works undertaken at Oldends Lane

Excavation work has been completed for new ducts

Concrete delivery for kerbs

New kerb line on eastbound exit

Joint pits have been completed
for HV electrical diversions

Installation of drainage gullies at
Old Ends Lane
