

Background

Background

Gloucestershire County Council are proposing to undertake highway improvement works at the junction of the A38 and B4008, known as Cross Keys Roundabout. This junction is a strategically important part of the road network in Gloucestershire. This junction is 800m north of junction 12 of the M5 motorway. It links directly to Gloucester for vehicles approaching from the motorway and from the A38.

The proposed improvements will provide increased capacity at the roundabout by widening the circulatory and approaches, and providing additional enhancements for pedestrians and cyclists.

The current programme is to begin work in Spring 2019 with completion in Autumn 2019.
