

## B4058 Rushmire Hill Geotechnical Remediation Scheme

Funded by  
UK Government

**We're pleased to share that work on the project is progressing extremely well and is now nearing completion.**

As shown in the latest photographs, all surfacing works have been completed and ground monitoring equipment has been installed. We are now moving into the final phase of the project, which includes:

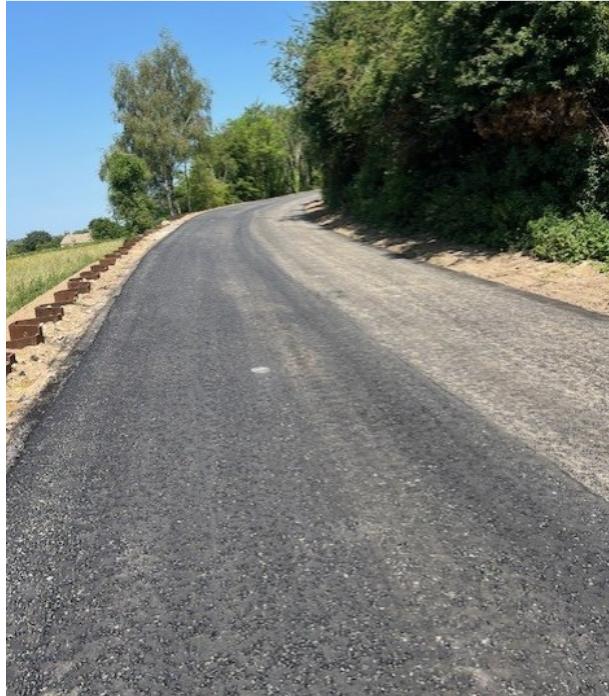

- Installation of fencing
- Topsoiling
- Road marking
- Site demobilisation

**The current road closure is scheduled to remain in place until 4th July.** We expect to demobilise the site during the road closure period so that once the road reopens, no further works will be required.

**Montel and Gloucestershire County Council** would like to sincerely thank all residents and businesses for their patience and cooperation throughout the delivery of this important project.

Throughout the project, we have worked hard to support the local community. This has included donations to local organisations and charities, the use of local suppliers, and the employment of local people. Once on-site work is complete, we will also be volunteering at Wotton Skate Park, where we will be refurbishing the facility so it can once again be enjoyed by local riders. Additionally, we've partnered with the Gloucestershire Careers Hub to help upskill local unemployed individuals. In total, we estimate that over £500,000 has been reinvested into the community.

**Thank you once again for your continued support.**

Please contact **customerservice@montel-group.com** if you have any specific queries or concerns or would like to be added to the mailing list.
