As regards the technical staff, it was felt that at least some of them, whose status bordered upon certain of the skilled men receiving 2 per cent., would be placed in an unfair position unless some consideration was given to them, but how far such consideration should go and which members should be included was a matter for the employers to arrange.

Resolved. That an additional war bonus of 3/6 per week be granted to workmen over 18 years of age (including the three charge engineers) in addition to the 12½ per cent on earnings to which they may be entitled under the Award, the first payment of the bonus to be deemed to have become due on the 4th instant.

The Mayor protested against the public discussion at the meeting of the Traders' Association on the 10th instant of the scheme which was considered at the last meeting of the Town Improvement and Spa Committee and referred to this Sub-Committee for consideration and report, as he considered that matters under consideration of a Committee should not have been brought up for public discussion by members of the Committee.

As there were only two members present, the consideration of the matter was left by the Sub-Committee to the full Committee.

The Committee considered the question of providing concerts during the coming season, and Mr. Pates stated on behalf of the Traders' Association that if the Council provided a morning orchestra and also an orchestra in the afternoon, the Association were willing to contribute £50 if the loss was over £200.

3—Fruit Market—The Sub-Committee reported that they met on the 17th instant. Present—The Mayor, Aldermen Bendall, Margrett and Steel, and Councillor Stewart (Alderman Margarett in the chair).

Messrs. Evans, May. Restall and Sharp attended as representatives of the Cheltenham and District Market Gardeners' Fruit Growers' Association, Ltd.; Messrs. F. S. Graff, P. M. Buck and G. L. Bick (Representatives of the Agricultural Organisation Society), and Mr. Castle also attended.

Mr. Restall complained of the way the Market was managed, shortage of pots and unfair distribution of pots.

Mr. Sharpe submitted that tolls ought to be charged.

Mr. May complained of bad organisation of the Market, shortage of pots, and unfair distribution of pots, dishonest packing and grading. bad language in the Market, insufficient advertising, and that there was no system of forward registration of produce.

They wanted to have their own Market, and appoint their own Auctioneer, so as to have the entire control of the business and to have the profits made thereby. They were taking Counsel's opinion as to their rights, but if the law was against them they had Government departments behind them and would be able to obtain the powers they required.

The Sub-Committee informed the Deputation that the Corporation desired to provide all proper and reasonable facilities at the Market. but as Trustees of the Ratepayers they were not prepared to hand over the Market (which had cost over £8000) to a private company to be entirely run for their benefit.

They reminded the Deputation that the complaint as to shortage of pots and unfair distribution of pots had been dealt with at the previous conference. The shortage of pots had been felt by all Markets and was due to interruption of the trade with Holland. A large consignment of pots ordered for the Cheltenham Market had failed to arrive and had presumably been lost at sea. A further consignment ready for shipment at a Dutch port could not be shipped, notwithstanding that urgent representation had been made to the Food Controller to obtain shipping facilities for same if possible.

The shortage had been rendered more acute by failure of growers to return pots to the Market. The books showed that at the end of last season 3182 pots and 1016 sieves had not been returned by growers.

The Sub-Committee had also carefully investigated the complaint of unfair distribution and had obtained a detailed statement showing the actual distribution of pots among the various growers and had unanimously come to the conclusion that the complaint was not justified. The booking and distribution of pots had now been placed in the hands of the Clerk of the Market recently appointed by the Corporation. Owing to the failure of the fruit crop there was an ample supply of pots for this season.

The Gloucester Market, to which the Association are now sending produce, is owned and controlled by the Gloucester Corporation. The sales are conducted by one Auctioneer who is appointed by the Corporation. The Market is run on the same lines and practically under the same regulations as the Cheltenham Market, except that at the Cheltenham Market no tolls are charged and in addition the members of the Association have had the special privilege of receiving a bonus on the amount of their sales. The bonus distributed last year among the Members was £110 to and a similar sum had been set aside for the improvement of the Market.

159

In some respects greater facilities were provided at Cheltenham than at Gloucester, as there were no early Market sales at Gloucester until the Association got the Auctioneer at Gloucester Market to start early morning sales last month in opposition to the Cheltenham Market.

In face of the uncompromising attitude of the Association and of the clear intimation from Mr. May that the aim and object of the Association is to obtain full control of the Market for the benefit of the Company, and in view of the boycott organised by the Association to enforce their demands, the Sub-Committee feel that it is extremely difficult to make any suggestions to meet the Association. However, with a view to try and meet the Association if possible, they informed the Deputation that they were prepared to recommend the Corporation to appoint the Secretary of their Association (Mr. W. Whitehead) as organizer of the Market at a salary to be agreed upon. Mr. Graff (the representative of the Agricultural Organisation Society) recommended the Society to accept this offer. If it is accepted, it will be necessary to fix the salary of and define the duties of the organizer but in general his duties would be to act in co-operation with the Auctioneer and the Clerk of the Market. He could organise a system of forward registration of produce, the importance of which was emphasised by Mr. May; he would also keep in touch with sellers and buyers, see to the advertising of sales, and generally act with a view to the development of the Market, and report from time to time to the Committee thereon. He might also undertake the duty of seeing that produce was properly packed and graded and decide any question as to proper packing and grading, subject to a right of appeal to an Umpire in any case where his decision was not acceptable to either party.

Resolved. That the Report of the Sub-Committee be approved and adopted.

4—Local Fuel Committee—Resolved. That Mr. J. T. Jackson be appointed a member of the Local Fuel Committee to represent the Co-operative Society.

Read a letter from the Secretary of the Cheltenham and District Trades and Labour Council asking to be represented on the Local Fuel Committee. Resolved, That the letter be considered when a vacancy on the Committee occurs.

Read a letter from the Clerk to the Charlton Kings Urban District Council stating that his Council had decided to join with Cheltenham for the purposes of the Order.

5—Local Food Control Committee—Read a letter from the Divisional Commissioner, Ministry of Food, suggesting that an arrangement should be made with the Urban District Council of Charlton Kings for the appointment of a joint Food Control Committee for that District and the Borough, as this would promote economy, despatch, uniformity and general efficiency in the transaction of the work which is likely to continue for a long time. The Town Clerk reported that he had communicated with the Charlton Kings Urban District Council, but that up to the present he had not received a reply. Resolved, That the Ministry of Food be informed that the Council approve of the suggestion and are willing to carry out the same if the Charlton Kings Urban District Council are prepared to join with the Borough.

At this

Meeting the Board proposed as an adjustment that the 13a. sr. 6p. should be retained by the Corporation and that the Corporation should give up 1a. 1r. 12p. in Rule Meadow and pay £50 compensation for equalisation of value to the Landowner to whom a portion of the 13a. 1r. 16p. had been allotted. The Board urged the acceptance of these terms in the national interest to avoid delay in completing the award. Where such kitchens had been established, the consumption of coal had undoubtedly been reduced within those particular areas of supply and having regard to contingencies such as had arisen in countries where the supply of domestic fuel has had to be drastically cut down it was highly desirable that Local Authorities should be in a position to secure the distribution of an adequate supply of cooked food.
