INTRODUCTION

The Unemployment Bulletin provides a monthly update on unemployment data for Gloucestershire, the South West region and the United Kingdom. It is produced by the Strategic Needs Analysis Team in the County Council's Strategy and Challenge function. The data is sourced from the Office for National Statistics via Nomis (www.nomis.co.uk).

The claimant count measures the number of people claiming unemployment-related benefit (currently Job Seeker's allowance). The claimant rate is the number of claimants as a proportion of the working age population.

PART 1: SUMMARY

The claimant rate in Gloucestershire was 2.6% in April 2013. This was a decrease of 0.1% on the March 2013 figure. The South West rate and UK rate also decreased to 2.5% and 3.8% respectively. Gloucestershire's rate is 0.1% above the South West average of 2.5%, and 1.2% lower than the UK average of 3.8%.

The claimant count in Gloucestershire in April 2013 decreased by 233 people. The amount of people claiming in April 2013 was -2.3% lower than the number in March 2013. This compares to a -4.7% decrease in the South West and a -2.9% decrease for the UK.

The year on year claimant count in Gloucestershire has decreased since last month. The count was -6.8% lower in April 2013 than at the same point in the previous year as shown in the graph below.

PART 5: MAP SHOWING DISTRIBUTION OF CLAIMANT RATE ACROSS GLOUCESTERSHIRE

PART 6: YOUNG PEOPLE NOT IN EDUCATION, EMPLOYMENT OR TRAINING (NEET) IN GLOUCESTERSHIRE

Data provided by Prospects, the Connexions service in Gloucestershire on the situation of young people (16-18) in Gloucestershire who are not in education, employment or formal training.

Connexions Gloucestershire is required to report performance with the 16-18 age range against nationally defined criteria for counting the NEET group. The NEET group includes young people actively seeking education, employment or training as well as those young people who are either not yet ready or who are unable to access these opportunities because of their personal circumstances. The figures quoted below include young people in both of these categories.

Summary

At the end of April 2013 there were 875 young people in Year 12-14 age range not in education, employment or training in Gloucestershire and this figure translates into an adjusted (*) 16-18 NEET population of 5%. The total number of NEET increased by 259 young people in April 2013 compared to March 2013 (The Reporting has changed from actual age to academic age, so this has altered the figures slightly, so may not be an absolute true picture of comparison of figures from March 2013 to April 2013). All six districts saw a
