

## **Order making authority's comments on objections and representations**

The Orders were advertised on 31<sup>st</sup> October 2024 and notices were put up on site on 30<sup>th</sup> October 2024. Two objections and seventeen representations to the Diversion Order were received during the 28 day statutory period for objections or representations to the order.

A response was sent to the objectors. Both objectors subsequently agreed to withdraw their objections, subject to mitigation measures to improve accessibility and address health and safety concerns, and installation of a plaque inscribed or printed with the lines of poetry that can be seen from the definitive path.

An email was sent to each person who made a representation or objection to inform them that the order was being submitted to the Secretary of State for confirmation.

Of those who made representations, the following have asked to be kept informed of progress of the Diversion Order:
