The Claimant Count is a measure of the number of people who are unemployed and claiming benefits. From 1996 until the recent introduction of Universal Credit, this was based on the number of people claiming Jobseeker's Allowance. However, since its introduction some unemployment benefit claimants will be claiming Universal Credit instead. **To reflect this change, the Claimant Count has been expanded to include people claiming Jobseeker's Allowance plus those who claim Universal Credit and who are searching for work.**

Since 2016 Gloucestershire has been transitioning to full Universal Credit with the process due to be completed in 2025. This means a broader span of claimants will be required to look for work than under Jobseekers Allowance. As more people are brought within the coverage of Universal Credit, the Claimant Count is set to rise. In addition, in May 2024 the DWP rolled out an increase in the administrative earnings threshold (AET) for full work search conditionality. This means a cohort of claimants who are in work but on an income below the AET will now be required to search for work. This change is likely to affect around 180,000 claimants across the country over around 6 months, increasing the Claimant Count over that time. More information about Universal Credit please see the [ONS website](#).

INTRODUCTION

The Unemployment Bulletin provides a monthly update on unemployment data for Gloucestershire, the South West region and the United Kingdom. It is produced by the Data, Analysis & Insights Team in the County Council's Planning, Performance and Insight function. The data are sourced from the Office for National Statistics via Nomis (www.nomis.co.uk). All data are rounded to the nearest 5 and may not precisely add to the sum of the number of people claiming JSA, and the number of people claiming Universal Credit required to seek work, due to independent rounding.

PART 1: SUMMARY

The claimant rate in Gloucestershire increased to 2.7% in February 2026. The South West rate increased to 2.9%, whilst the UK rate increased to 3.9%. Gloucestershire's rate was 0.2% lower than the South West average of 2.9%, and 1.2% lower than the UK average of 3.9%.

The claimant count in Gloucestershire in February 2026 increased by 600 people. The amount of people claiming in February was 5.8% higher than the number in January. This compares to a 5.0% increase in both the South West and in the UK.

Note on claimant count rates:

From Jan-26 data onwards, ONS have updated local authority, regional and national population estimates, used to calculate rates, to the most recent 2024 mid-year estimates.

Youth Claimant Rate and Claimant Count

Figure 15: Claimant Count for Gloucestershire over the past year

Figure 15 shows that in February 2026, 2,070 people aged 18-24 were claiming Job Seekers Allowance and Universal Credit who were not in work in Gloucestershire, this represents 18.9% of total working age claimants.

PART 7: YOUNG PEOPLE NOT IN EDUCATION, EMPLOYMENT OR TRAINING (NEET) IN GLOUCESTERSHIRE

Data provided by Gloucestershire Youth Support Team on the situation of young people (16-18) in Gloucestershire who are not in education, employment or formal training.

Gloucestershire Youth Support Team is required to report performance on the Academic Year 12 and 13 (16/17 age) against nationally defined criteria for counting the NEET group to the Department for Education (DfE) on a monthly basis. The NEET group includes young people actively seeking education, employment or training as well as those young people who are either not yet ready or who are unable to access these opportunities because of their personal circumstances. The figures quoted below include young people in both of these categories.

The academic year 12-13 group contains a proportion of young people who turn 18 in the academic year but were 17 on the 31st August the previous academic year so are entitled to learning through RPA (raising participation age).

Please note all figures quoted above are subject to change before the submission date to the DfE which usually happens in the second or third week of the month for the previous month.

If you would like to receive any further information on Gloucestershire's NEET strategy, then please contact lynne.speak@gloucestershire.gov.uk.

(*) Adjustment includes a proportion of young people aged 16-18 whose outcomes are not-known to Gloucestershire Youth Support Team.

(**) Change in monthly rate.
