Form 2 as above to Mr. Steven Harwood 14-09-2024

Maps:

Google Earth image map showing track and routes.

Definitive Map showing current public rights of way relating to Gloucester non-parish of Hempsted

Section of Definitive Map above showing requested modification route indicated in red and blue to indicate Mr. Harwood's and Enovert's land.

2 old maps indicating a path from Hempsted and the River Severn. This route might have changed over time but it was likely altered to its current route when the landfill site was created.

Photographs:

10 photographs; 6 illustrating the various gates leading into and through the two open fields and showing no signage relating to the way path that is the subject of the appeal. [I had overlooked another photograph showing the open gate at point B on the Google image that will increase the total number to 11. I will add it in this email]

4 of the photographs illustrate the local environment and entries into the Glevum Way public footpath.
